Education-Schools

My dear Mr. Commissioner:

There are transmitted herewith one hundred and twenty-nine Applications for Public School Tuition for the school year beginning July 1, 1926 and ending June 30, 1927. These applications have been checked very carefully by the writer as to the qualifications of the teachers, the cost of operation last year and other conditions affecting the rate of tuition. It is respectfully recommended that the Office approve the rate recommended as in most cases they are the same as last year, and no increases have been made except in certain cases, and in all of these special justifications have been attached to the applications. Applications submitted are as follows:

In this connection, the writer desires to call the attention of the Office to a plan of issuing authorities for the payment of tuition which would work to a better advantage in this jurisdiction than the one now used. At present the authority is issued for a certain number of pupils, but it is very hard to estimate the number of pupils that will attend a specified school as these Indians move about in search of work, and send their children to the school nearest their place of employment, thus causing the necessity to have authority modified or the school will have more Indians in attendance than they are able to draw tuition on. The writer would suggest if such a plan can be arranged that the authority be issued on an average attendance basis, as by this plan if a school has estimated for ten or twenty pupils and some additional move into the district, the additional pupils could be paid under this plan without securing modification, if the addition was not too large.

Office

It is respectfully requested that the allot funds to cover these applications as soon as possible as we have a large number of reports in this office awaiting payment. Kindly be advised that we will have several more applications as soon as they can be secured from the school authorities in proper form.

Very truly yours,

L. A. Derrington
