Memorandum

To: All Regional Directors
   Attention: Natural Resources, Forestry and Fire Management Managers and Supervisors

From: [Signature]

Subject: Office of Trust Services Pathways Program Internships

The Office of Trust Services (OTS) has established 116 internship positions across 7 different programs. The rules and attributes of these internships vary considerably according to the needs of the program. In all cases, these internships are designed to provide an opportunity for youth to explore careers in the Bureau of Indian Affairs (BIA) and related tribal programs as paid federal employees while completing their education. In general, the Pathways Internship Program targets Indian Preference students, who are enrolled in an accredited college or university, and seeking a degree in a STEM (Scientific, Technical, Engineering, and Mathematics) academic program. Attached is a BIA OTS Pathways Internship Program brochure providing details.

This past year, recruitment strategies focused on increasing tribal diversity of students participating in the program across the various Federally recognized tribes. Outreach efforts generated numerous tribal inquiries and student interest in participation. The table below provide the total number of students in fiscal years 2016 and 2017, showing the number of male and female and individual tribes represented. Additionally, 2017 shows current student totals, pending entrance on duty (EOD) and a year to date (YTD) total. The combined total of individual tribes represented across both years is 37.

As of March 22, 2017

Footnote: 1/ The January 31, 2017 Federal Civilian Hiring Freeze Guidance provided an exemption for the appointment and conversion of appointments made under the Pathways Internship, provided that the BIA agency meet Central Office hiring requirements and applicable approvals for its hiring plans.
Supervision and Program Responsibilities
Student interns are BIA Central Office federal employees, and thus their permanent supervisor of record is the Central Office program official under which they were hired. Both the Central Office program officials and the host office supervisors play critical roles in the success of the internship program. Central Office has administrative oversight, program compliance, and technical support, while the host unit directly supervises, evaluates performance and reports on progress. Additionally, the role of the host office or unit is to make available quality work assignments related to the student's academic studies and to ensure that the objectives of the developmental plan and participant agreement are met.

Pathways Internship Coordinators
Pathways Internship Coordinators administer the program for their office, including the recruitment, on-boarding, monitoring and non-competitive conversions of student interns into career conditional permanent full-time positions. They also work closely with program officials, hosting units, regional youth liaisons, and equivalent tribal officials to facilitate the placement of student interns at hosting units. Attached is a BIA OTS Pathways Internship Program brochure providing details.

Internship Job Announcements
Internship Job vacancies are published throughout the year on the USAJobs website at https://www.usajobs.gov/studentsandgrads/. When these announcements are posted, hiring officials and program managers as appropriate will receive an e-mail with instructions on how to request to host student interns.

Internship Position Types
Each position's individual education and qualification requirements vary depending on the program type, workforce planning needs and area served, including the appointment length (tenure), and participant's requirements. Each variation represents the unique needs of the specific OTS program. Due to these variances, it is paramount that interested hosting units and potential applicants refer to the job announcement for program specifics, qualifications and requirements.

Programs Supported:
- Agriculture and Rangeland Management
- Forestry
- Wildland Fire
- Climate Change
- Real Estate Services
- Land Titles and Records
- Water and Power

The American Indian Agriculture Resource Management Act (25 USC 39) and National Indian Forest Resources Management Acts (25 USC 39) both mandate internships for forestry, wildland fire and related natural resources study programs.

Funding
Student intern’s base salaries and benefits will be covered by Central Office cost accounting codes. Central Office has budgeted to cover the regular time for the interns for a period of 12 weeks and must not exceed $7,500 each fiscal year, unless otherwise stated or authorized. On rare occasion, when the hosting unit has additional work for the student intern beyond the
budgeted 12 weeks, arrangements can be initiated by the hosting unit to continue working the intern using their funding sources, including other expenses e.g., (travel expenses, local, tribal or formal training opportunities, tuition assistance).

Hosting Internships
Units interested in hosting a student intern(s) for the 2017 field season are encouraged to complete the attached document, the “Host Office Intern Request” and return it as per the instructions in the e-mail or directions at the bottom of the document. Requests must be submitted at least 30 days prior to the anticipated start work date to allow for better coordination and processing.

Student intern’s work schedules can be configured to fit a variety of situations. Students can work year round, during summer, and or during breaks. Student interns can also be placed with a tribe or tribal organization. Since the student interns are federal employees, when assigned to a tribe, a local BIA official is required to “host” to fulfill the administrative requirements.

Evaluations
Hosting units are responsible for completing a “Student Internship Evaluation” at the end of each assignment to assess an intern’s strengths and weaknesses and to ensure the match with the agency is a good one. If problematic issues arise at any time during the internship, they are to contact the program supervisor or Pathways Internship Coordinator as soon as possible.

Student Intern Placements
Selections will be made based on the following:
  a) Student’s duty station and/or permanent residence;
  b) Internship Participant requirements;
  c) Job responsibilities and location;
  d) Relevance to a student intern’s major and course work;
  e) Duration of employment;
  f) The learning opportunity associated with completing an internship with the proposed employer; and
  g) Completed Host Office Intern Request requirements (i.e. detailed description of work assignments and training opportunities, cost sharing, and signature from authorizing official).

Conversion of Student Interns
Student interns may be eligible for non-competitive conversion into a professional series position upon successful completion of the internship, when they have completed the minimum hours of work experience (640 hours), completed their education requirements, received a favorable evaluation from their hosting unit, and meet the education qualification requirements for the position to which the intern is being placed. The effective date or conversion is a mutually agreed upon start date between the receiving office and student intern. Conversions must be completed on a start date that is mutually beneficial to both the agency and student intern and within applicable time-frames. The completion of degree requirement means receipt of diploma or completion of semester or quarter of last qualifying classes.

Forestry and Wildland Fire Coordination
The OTS partners with Salish Kootenai College (SKC), Tribal Research & Education in Ecosystem Sciences (TREES) Student Program to provide support for Tribal Forestry and Wildland Fire programs and initiatives. SKC also addresses at-risk forester occupations that
further the tribal capacity for land and natural resource stewardship while promoting tribal self-determination and self-governance initiatives.

If you have questions, please contact Gayla Schock, OTS Pathways Program Manager / Internship Coordinator, at (202) 208-6410.

3 – Host Office Intern Request Form
**Pathways Program Eligibility and Requirements**

- Enrolled in a Federally Recognized Tribe (Submit a form BIA - 4432),
- Be at least 18 years of age,
- Accepted or enrolled full-time in an accredited college or university and seeking a degree in related academic program,
- Have and maintain a cumulative GPA of 2.0 or higher,
- Ability to obtain and maintain a security clearance,
- Service Agreements (Tuition), and
- Maintain a valid Pathways Program Participant Agreement

Some positions may also require a Medical exam, Drug Testing, and a Driver License

**Conversion Opportunities**

To be eligible for non-competitive conversion into a full-time position within the BIA, Interns must:

- Complete at least 640 hours of work experience acquired through the Internship Program,
- Complete their degree or certificate requirements,
- Meet the OPM qualification standards for the position to which the Intern will be converted,
- Meet agency-specific requirements as specified in the Participant’s Agreement,
- Received a “Fully Successful” or above Performance Rating of Record,
- Received favorable evaluation and recommendation from host supervisor for non-competitive conversion “appointment”, and
- Accept job placement offer and relocate if necessary.

**Other White Collar:** Police, Correctional Officer, and Various Student Trainee Occupations

Pathways Internships

The OTS programs offers paid internships for emerging leaders who are seeking degrees in natural resources management, forestry and other related environmental and biological science fields. This Program not only offers students paid employment, while they continue their education, but also gives them valuable and unique work experiences. We offer rotational summer assignments within different programs and work environments, where students can train and job shadow with industry professionals.

**Education Requirements**

Students in a qualifying educational institution may be appointed to any grade level for which they qualify.

- **GS-2:** Completion of high school or GED diploma.
- **GS-3:** Completion of 1 academic year of post-high school study.
- **GS-4:** Completion of 2 academic years of post-high school study or associate's degree leading to a bachelor's degree in related academic discipline.

**Program Benefits** (Career Conditional and temporary appointments that are more than one year)

- Up to $5,000 Tuition/education subsistence *,
- Paid Summer Employment – related to academic field of study,
- Travel and Rotational summer assignments,
- Students are recruited nationally across Indian Country,
- Do not have to have prior work experience,
- Mentoring, training and career development opportunities,
- Flexible schedules,
- Vacation, Sick and Holiday Pay,
- Life Insurance, Flexible Spending Accounts, Health Benefits, and Retirement, and
- Potential for non-competitive placement after graduation into a permanent professional entry-level BIA or tribal position.

*Not all internships offer tuition support, some internships are for summer employment only

Updated: February 14, 2017
**Host Office Intern Request**

**PURPOSE:** To initiate a request for one or more interns. Requestors that volunteer to host an intern should accurately describe the work tasks and training assignments for the intern(s) to improve recruiting and skill matching for the host unit. In all cases, it should be noted that the student intern’s work schedule should be designed and monitored to ensure it supports the student’s ability to complete their required academic work. Interns must be hosted by the Bureau of Indian Affairs (BIA) but may be placed with tribe or tribal organization. Administrative requirements are retained by the BIA. Procedural questions on completing this request or on other aspects relating to the Pathways program should be addressed to the Pathways Program Coordinator.
