SCHOOL FACILITIES SPACE TEMPLATES

March 30, 2007

**BUREAU OF INDIAN AFFAIRS
SCHOOL FACILITIES SPACE TEMPLATES**

TABLE OF CONTENTS

A1.	SCHOOL FACILITIES SPATIAL LAYOUT CRITERIA	
	INTRODUCTION.....	A1000-1
	SRD-1 K-6 GRADE SCHOOL MODEL – ALTERNATIVE #1	A1010-1
	SRD-2 K-6 GRADE SCHOOL MODEL – ALTERNATIVE #2	A1020-1
	SRD-3 K-8 GRADE SCHOOL MODEL – ALTERNATIVE #1	A1030-1
	SRD-4 K-8 GRADE SCHOOL MODEL – ALTERNATIVE #2	A1040-1
	SRD-5 K-12 GRADE SCHOOL MODEL – ALTERNATIVE #1	A1050-1
	SRD-6 K-12 GRADE SCHOOL MODEL –ALTERNATIVE #2.....	A1060-1
	SRD-7 9-12 GRADE SCHOOL MODEL – ALTERNATIVE #1	A1070-1
	SRD-8 9-12 GRADE SCHOOL MODEL – ALTERNATIVE #2	A1080-1
	SRD-9 DORMITORY FACILITY MODEL – ALTERNATIVE #1	A1090-1
	SRD-10 DORMITORY FACILITY MODEL – ALTERNATIVE #2	A1100-1
A2.	INTERDISCIPLINARY STANDARD CLASSROOMS (ISC)	
	ISC-1 KINDERGARTEN CLASSROOM.....	A2000-1
	ISC-2 GRADE 1 GENERAL CLASSROOM.....	A2010-1
	ISC-3 GRADES 2 & 3 GENERAL CLASSROOM	A2020-1
	ISC-4 GRADES 4-6 GENERAL CLASSROOM	A2030-1
	ISC-5 GRADES 7 & 8 GENERAL CLASSROOM.....	A2040-1
	ISC-6 GRADES 9-12 GENERAL CLASSROOM	A2050-1
	ISC-7 TEACHER PLANNING / MATERIAL STORAGE	A2060-1
	ISC-8 STAFF RESTROOM	A2070-1
A3.	DEDICATED SPECIALIZED CLASSROOMS (DSC)	
	DSC-1 COMPUTER LAB.....	A3000-1
	DSC-2 GENERAL SCIENCE LAB	A3010-1
	DSC-3 MULTI-PURPOSE SCIENCE LAB	A3020-1
	DSC-4 EARTH SCIENCE / PHYSICS LAB.....	A3030-1
	DSC-5 CHEMISTRY / BIOLOGY LAB	A3040-1
A4.	HOME ECONOMICS (HE)	
	HE-1 HOME ECONOMICS CLASSROOM.....	A4000-1
	HE-2 CLOTHING DESIGN CLASSROOM	A4010-1
	HE-3 FOOD PREPARATION AND NUTRITION CLASSROOM	A4020-1
A5.	PRACTICAL AND FINE ARTS (PFA)	
	PFA-1 GRADES 1-3 PRACTICAL AND FINE ARTS CLASSROOM.....	A5000-1
	PFA-2 GRADES 1-8 PRACTICAL AND FINE ARTS CLASSROOM.....	A5010-1
	PFA-3 GRADES 1-8 MUSIC PROGRAMS CLASSROOM	A5020-1

Table of Contents

A6.	PRACTICAL ARTS FOR HIGH SCHOOLS (PA)	
PA-1	PRACTICAL ARTS CLASSROOM.....	A6000-1
A7.	FINE ARTS FOR HIGH SCHOOLS (FA)	
FA-1	MUSIC AND CHORAL CLASSROOM	A7000-1
FA-2	BAND AND CHORAL CLASSROOM	A7010-1
A8.	VOCATIONAL EDUCATION (VE)	
VE-1	MIDDLE SCHOOL VOCATIONAL EDUCATION CLASSROOM	A8000-1
VE-2	HIGH SCHOOL VOCATIONAL EDUCATION CLASSROOM.....	A8010-1
VE-3	INDUSTRIAL ARTS SHOP.....	A8020-1
VE-4	ELECTRICAL SHOP	A8030-1
VE-5	METALS SHOP	A8040-1
VE-6	WOOD SHOP	A8050-1
VE-7	AUTO SHOP.....	A8060-1
VE-8	CADD CLASSROOM	A8070-1
VE-9	AGRICULTURE AND ECONOMIC DEVELOPMENT CLASSROOM..	A8080-1
VE-10	BUSINESS CLASSROOM.....	A8090-1
A9.	SPECIAL PROGRAMS (SP)	
SP-1	FAMILY AND CHILDHOOD EDUCATION (FACE) PROGRAM	A9000-1
SP-2	THERAPY CLASSROOM.....	A9010-1
SP-3	RESOURCE CLASSROOMS.....	A9020-1
SP-4	OFFICE AND TESTING	A9030-1
SP-5	BABY FACE PROGRAM	A9040-1
A10.	SCHOOL ADMINISTRATION (SA)	
SA-1	ADMINISTRATIVE OFFICES – 100 STUDENTS OR FEWER	A10000-1
SA-2	ADMINISTRATIVE OFFICES – 101 TO 200 STUDENTS.....	A10010-1
SA-3	ADMINISTRATIVE OFFICES – 201 TO 400 STUDENTS.....	A10020-1
SA-4	ADMINISTRATIVE OFFICES – 400 PLUS STUDENTS	A10030-1
SA-5	GRANT SCHOOL ADMINISTRATIVE OFFICES.....	A10040-1
A11.	MEDIA CENTERS (MC)	
MC-1	GRADES K–8 MEDIA CENTER – 100 STUDENTS OR FEWER.....	A11000-1
MC-2	GRADES K–8 MEDIA CENTER – 101 TO 200 STUDENTS	A11010-1
MC-3	GRADES K–8 MEDIA CENTER – 201 TO 400 STUDENTS	A11020-1
MC-4	GRADES K–8 MEDIA CENTER – 400 PLUS STUDENTS.....	A11030-1
MC-5	GRADES 9–12 MEDIA CENTER – 100 STUDENTS OR FEWER....	A11040-1
MC-6	GRADES 9–12 MEDIA CENTER – 101 TO 200 STUDENTS	A11050-1
MC-7	GRADES 9–12 MEDIA CENTER – 201 TO 400 STUDENTS	A11060-1
MC-8	GRADES 9–12 MEDIA CENTER – 400 PLUS STUDENTS.....	A11070-1
A12.	PHYSICAL EDUCATION (PE)	
PE-1	ELEMENTARY SCHOOL MULTI-PURPOSE ROOM.....	A12000-1
PE-2	ELEMENTARY OR MIDDLE SCHOOL MINI GYMNASIUM	A12010-1

PE-3	HIGH SCHOOL GYMNASIUM – FEWER THAN 201 STUDENTS ..	A12020-1
PE-4	HIGH SCHOOL GYMNASIUM – 201 TO 749 STUDENTS	A12030-1
PE-5	AUXILIARY PHYSICAL EDUCATION ROOM.....	A12040-1
PE-6	LOCKER ROOMS	A12050-1
PE-7	LOCKER ROOMS AND VISITORS LOCKERS	A12060-1
PE-8	CONCESSIONS AREA	A12070-1
A13.	DINING ROOMS (DR)	
DR-1	DINING ROOM – 100 STUDENTS OR FEWER.....	A13000-1
DR-2	DINING ROOM – MORE THAN 100 STUDENTS	A13010-1
A14.	SUPPORT SERVICES (SS)	
SS-1	FACILITIES MAINTENANCE SHOP	A14000-1
SS-2	CUSTODIAL CLOSETS	A14010-1
SS-3	GENERAL STORAGE	A14020-1
SS-4	TYPICAL LARGE GROUP RESTROOM	A14030-1
SS-5	COMMUNICATIONS ENTRANCE FACILITY (EF)	A14040-1
SS-6	TELECOMMUNICATIONS ROOM (TR)	A14050-1
A15.	DORMITORIES (D)	
D-1	GRADES 1–8 TWO-BED SLEEPING ROOMS / RESTROOM.....	A15000-1
D-2	GRADES 1–8 THREE-BED SLEEPING ROOMS / RESTROOM.....	A15010-1
D-3	GRADES 1–8 FOUR-BED SLEEPING ROOMS / RESTROOM.....	A15020-1
D-4	GRADES 9–12 TWO-BED SLEEPING ROOMS / RESTROOM.....	A15030-1
D-5	GRADES 9–12 THREE-BED SLEEPING ROOMS / RESTROOM....	A15040-1
D-6	GRADES 9–12 FOUR-BED SLEEPING ROOMS / RESTROOM.....	A15050-1
D-7	ISOLATION HEALTH CARE SLEEPING ROOM / RESTROOM.....	A15060-1
D-8	DORMITORY ADMINISTRATIVE AREA	A15070-1
D-9	COUNSELING OFFICE	A15080-1
D-10	IRG COUNSELING OFFICE	A15090-1
D-11	LIVING ROOM.....	A15100-1
D-12	ACTIVITY ROOM	A15110-1
D-13	PRACTICAL ARTS ROOM.....	A15120-1
D-14	STUDY ROOM	A15130-1
D-15	LINEN STORAGE	A15140-1
D-16	GENERAL STORAGE	A15150-1
D-17	TRUNK STORAGE.....	A15160-1
D-18	LAUNDRY AND IRONING ROOM	A15170-1
D-19	CUSTODIAL CLOSETS	A15180-1
D-20	PUBLIC RESTROOMS	A15190-1

Table of Contents

A16.	STANDARD MOUNTING HEIGHTS (SMH)	
	SMH-1 CLASSROOM CASEWORK – CABINETS	A16000-1
	SMH-2 CLASSROOM CASEWORK – CUBBIES	A16010-1
	SMH-3 WATER CLOSETS AND URINALS	A16020-1
	SMH-4 PLUMBING FIXTURES AND ACCESSORIES	A16030-1
	SMH-5 RESTROOM ACCESSORIES	A16040-1

A1000-1. General

- 1.1. The spatial relationship diagrams, space templates, and criteria checklists in this volume provide Designers of Record with the specific diagrammatic and programmatic information needed to design specific spaces for Bureau of Indian Education schools.

A1000-2. Spatial Relationship Diagrams

- 2.1. The spatial relationship diagrams in this chapter show possible arrangements for the various functional areas of a school or dormitory. These diagrams are meant only to demonstrate broad relationships between the parts of a building.
- 2.2. In addition to these overall building diagrams, there are program area diagrams where appropriate in each section of the following chapters. These diagrams demonstrate how the specific spaces within a program area may relate both to one another and to adjacent program areas.

A1000-3. Facility Space Templates

- 3.1. At the beginning of each section of Chapters 2 through 15 are facility space templates for each type of space within the Bureau of Indian Education educational program. Each space template includes a floor plan that illustrates the layout of a space and provides additional information concerning net square footages (within the walls of the room), loose furnishings, casework, plumbing, and technical systems.
- 3.2. These space templates show how some of the features and loose furnishings in classrooms and other areas may be organized, and shall be used as diagrammed unless noted otherwise on the space template. However, as building designs are developed, there will be instances in which a given template layout does not work within the geometry of the school design. In such cases, the layout may be modified. In general, however, modification of the space template layouts is not acceptable.
- 3.3. The loose furnishings shown on the space templates do not necessarily include all furniture options, nor do they mandate the inclusion of furnishings that may not be needed in a particular school facility. Rather, they provide a general concept of how a particular space could be furnished.

A1000-4. Space Criteria Checklist

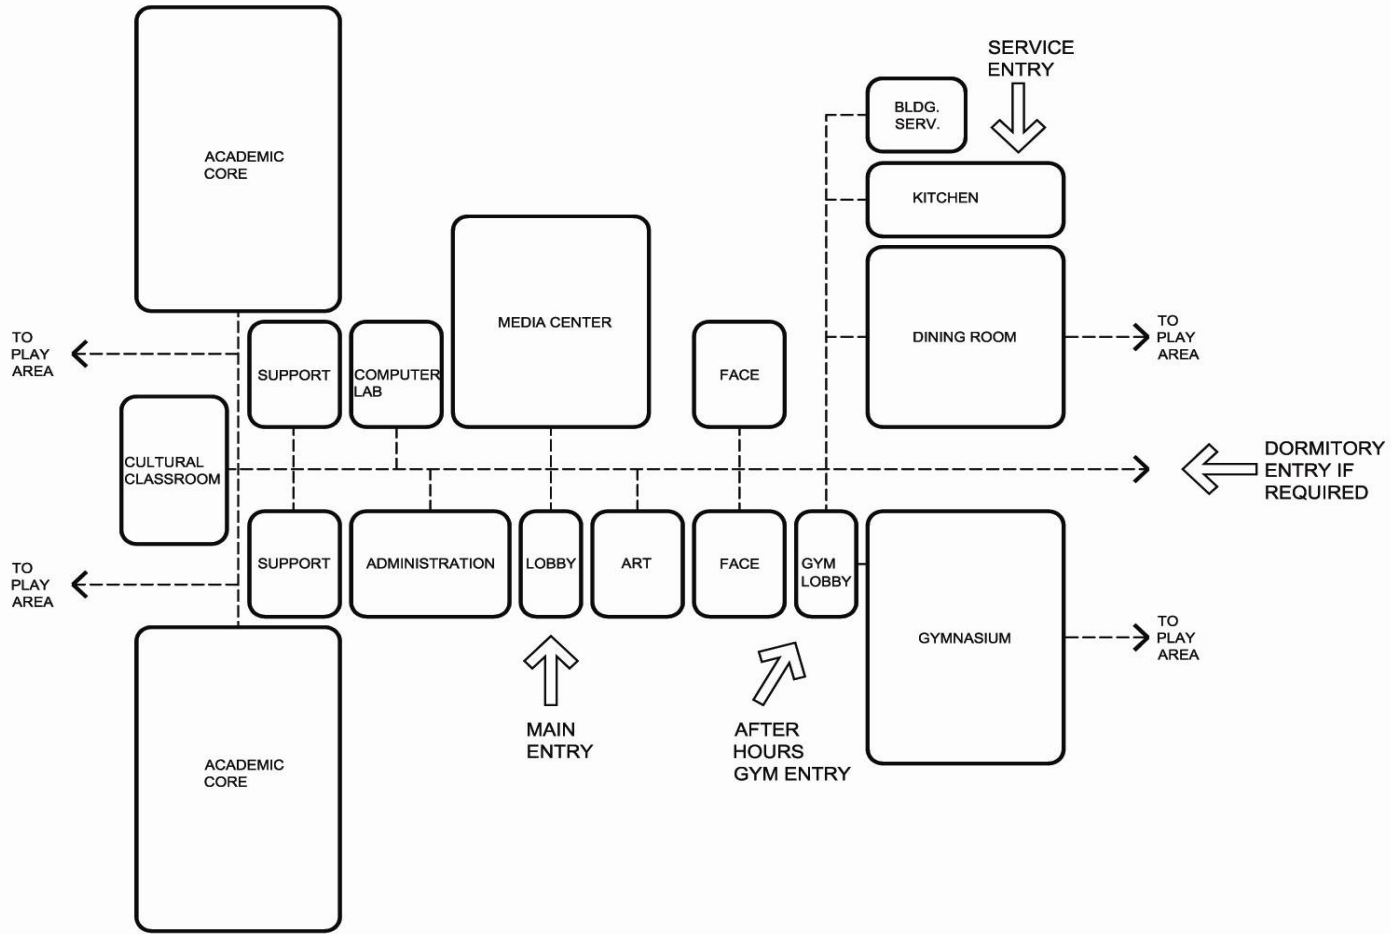

- 4.1. Following each space template is a criteria checklist that provides detailed information about standard requirements within the space and allows for the addition of further project-specific requirements. The following topics are addressed:
 - 4.1.1. **Space Description.** Identifies the main program space and any ancillary spaces within it. Each space is numbered, and the checklist criteria are keyed to these numbers.
 - 4.1.2. **Daily Occupancy Use.** Shows when a particular space will be used and whether it will require after-hours access.

- 4.1.3. *Environmental Conditions.*** Notes HVAC/environmental requirements specific to the space.
- 4.1.4. *Plumbing.*** Notes plumbing requirements specific to the space.
- 4.1.5. *Acoustical Conditions.*** Describes the acoustical environment of the space.
- 4.1.6. *Electrical/Lighting.*** Notes electrical and lighting requirements specific to the space.
- 4.1.7. *Communications/IT Requirements.*** Notes communications/information technology requirements specific to the space.
- 4.1.8. *Safety/Security.*** Notes safety and security needs specific to the space.
- 4.1.9. *Fixed Furnishings/Equipment.*** Provides guidelines for fixed furnishings, millwork, and other equipment generally used in this type of space. However, these items, as well as visual display boards, should reflect the needs of the individual school; the information given here is not intended to mandate casework or equipment that may not be needed by a particular school. Also, if appropriate, some items listed as fixed furnishings or casework could be mobile casework or loose furnishings. The design and layout of the casework is the responsibility of the Designer of Record, based on the needs of the individual school. Modifications may be made to the fixed furnishings and casework to accommodate particular educational requirements as long as those modifications do not result in additional linear footage of casework.
- 4.1.10. *Interior Finishes.*** Lists the acceptable finishes for walls, base, floors, and ceilings from which the design team may select. If doors and windows are required in the space, specialized information for them is also provided.
- 4.1.11. *Structural Requirements.*** The structural requirements given in this part include only those requirements within the space that are beyond the typical structural framing and design of the school facility, such as special floor loading requirements, special loading requirements of the overhead structure, etc.
- 4.1.12. *Signage Requirements.*** Notes specific signage systems needs and considerations.
- 4.1.13. *Fire Protection System.*** Notes fire protection requirements specific to the space.
- 4.1.14. *Program Activities.*** Indicates the type of activities that may occur in the space. These activities will vary from school to school depending on the school grade level configuration, size, and educational program offerings.
- 4.1.15. *Notes.*** Provides additional information, where needed, pertaining to requirements noted in the space criteria.
- 4.1.16. *Key Space Design and Relationship Concepts.*** Notes special considerations pertaining to the placement of the space.

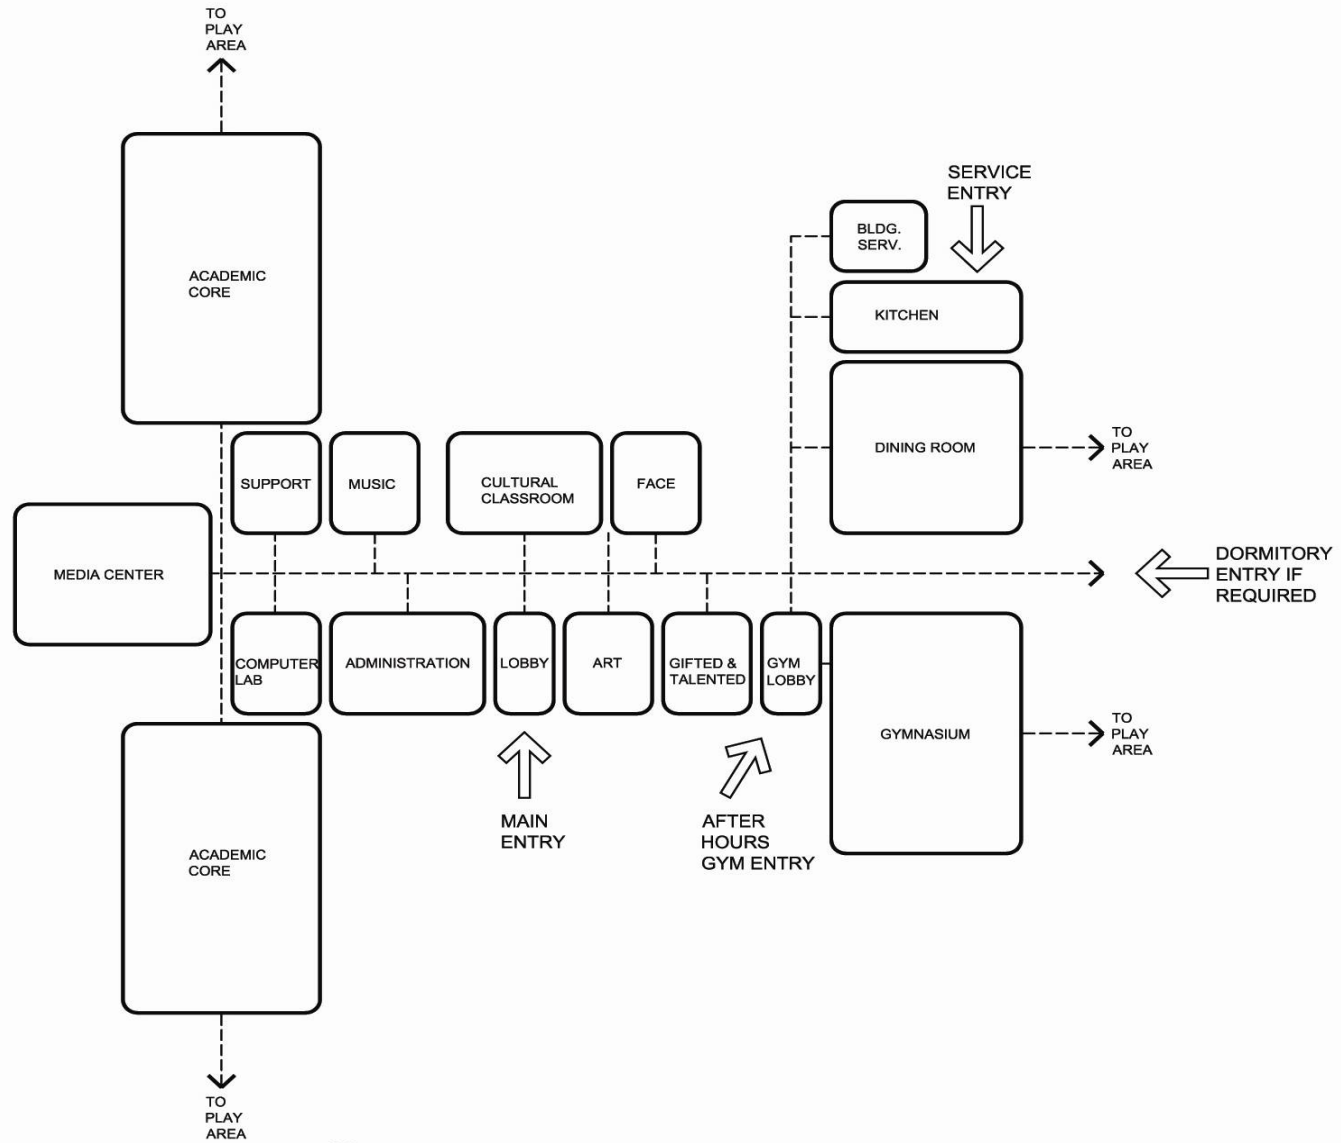

4.1.17. *Spatial Relationship Diagram.* This shows the broad spatial relationship between areas within the program space and, where pertinent, between those areas and adjacent program spaces.

A1000-5. Standard Mounting Heights

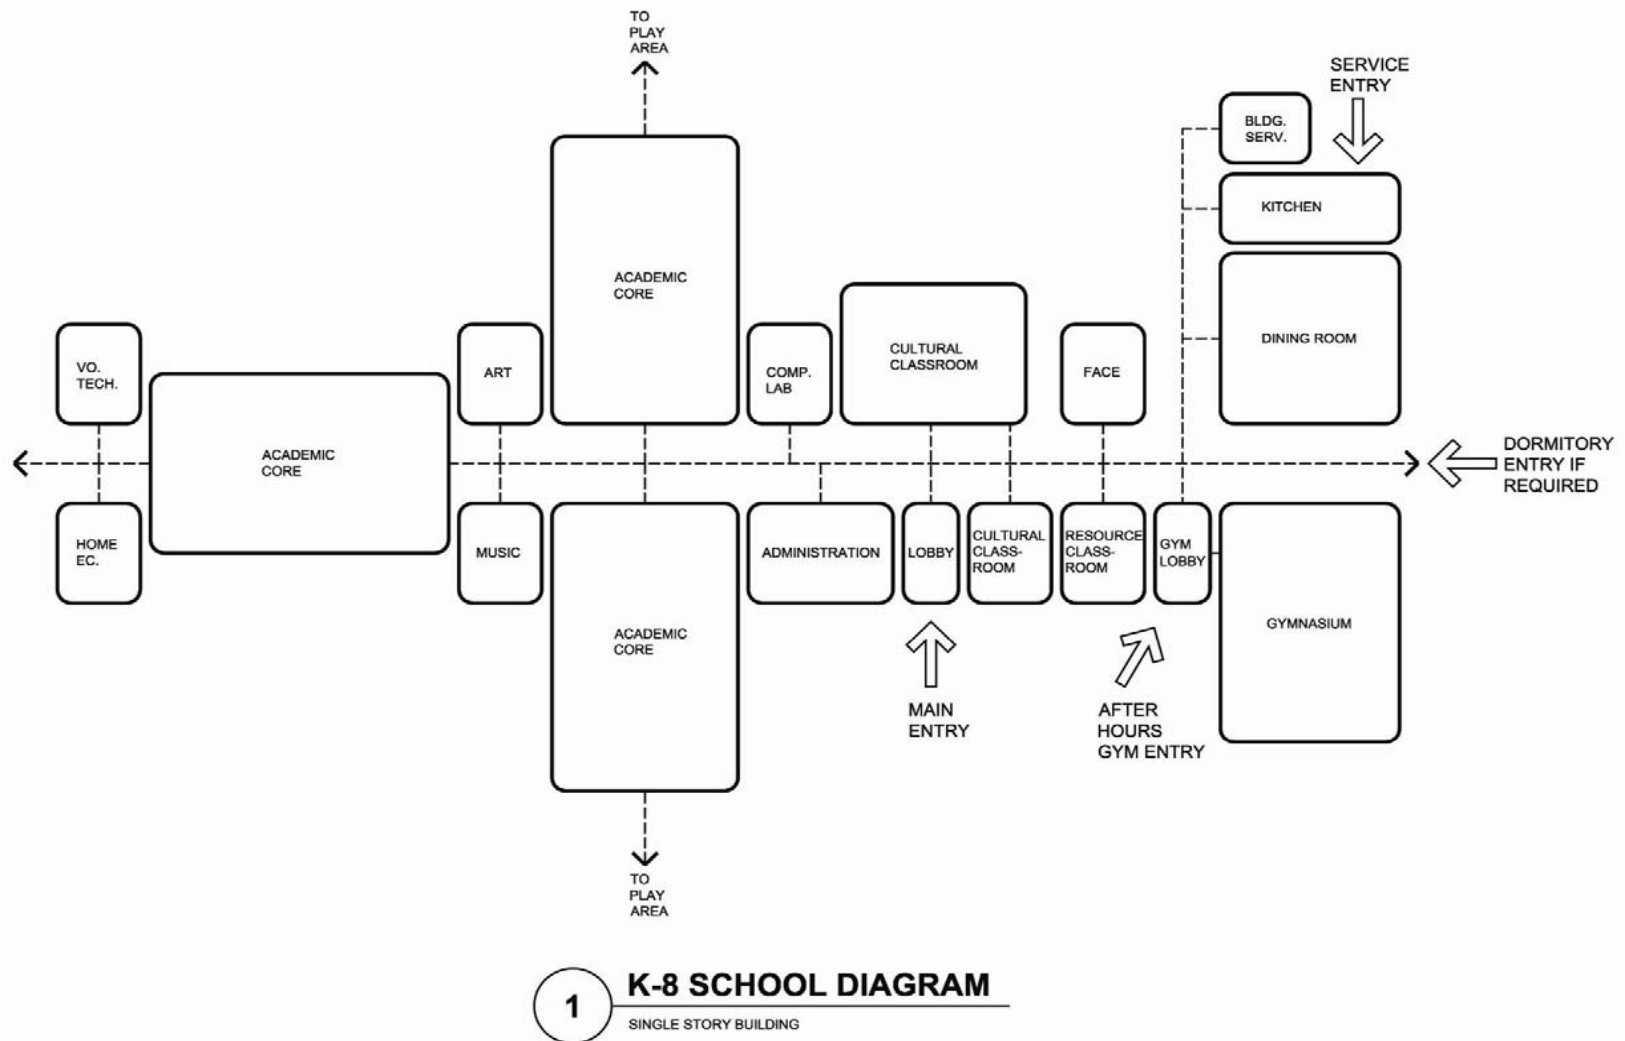

- 5.1.** The final chapter of this volume contains diagrammatic information about standard mounting heights for casework, plumbing fixtures, and toilet accessories.

ISC-1 Kindergarten Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY:	20 students	
SIZE:	1,200 s.f.	
ANCILLARY SPACES:	Student Restroom	80 s.f.
	Storage Area	80 s.f.

Key Notes:

- F1 Student storage cubbies
- F2 Tall wardrobe cabinet with locks
- F3 Plastic laminate base cabinets and countertop
- F4 Sink(s): specialty type: SS large, deep, single
- F5 Whiteboard
- F6 Tackboard
- F7 Soap dispenser
- F8 Paper towel dispenser
- F9 Windows/daylight into space required
- F10 16" deep adjustable shelving
- F11 TV with wall mounting bracket or TV cabinet
- F12 Interior window
- F13 Plastic laminate upper cabinets
- F14 Overhead projection screen

Chapter A2: Interdisciplinary Standard Classrooms

ISC-1 Kindergarten Classroom Space Criteria

BIA School Facilities Kindergarten Classroom

Space Description For square footages, see space template

1. Kindergarten classroom
2. Student restroom
3. Storage area

Daily Occupancy Use

9.5 hrs. (7:30 a.m.–5:00 p.m.)
five days a week Yes
After-hours use No

Environmental Conditions

Air pressure (balanced is assumed):
• Negative Yes in #2,3
Heating/cooling at floor level critical to user age Yes
Other HVAC equipment or requirements:
• _____

Plumbing

Domestic water:
• Hot Yes in #1,2
• Cold Yes in #1,2
Sinks: specialty type: SS large, deep, single Yes in #1
Handicapped access requirement Yes in #2
Other plumbing equipment or requirements:
• _____

"Yes" and "No" apply to all spaces
refers to Space Description designation
✓ indicates approved feature, system, or material

Acoustical Conditions

Speech privacy No
Special acoustical treatment needed No
Musical performance/singing/cheering expected No

Electrical/Lighting

Power outlet minimum number Yes in #1
Lighting requirements:
• Automatic lighting controls Yes in #1
• Direct/indirect lighting Yes in #1
• Multi-level switched Yes in #1
Safety receptacles Yes in #1,2
Other electrical/lighting equipment or requirements:
• _____

Communications/IT Requirements

Communication outlet (4-port) - teacher Yes in #1
Communication outlet (1-port per computer station) Yes in #1
CATV outlet (coax + Cat 6) Yes in #1
Sound reinforcement outlet Yes in #1
Wireless access point outlet (2-port) Req. coverage
Mobile projection cart outlet Yes in #1
Outlet (1-port) for future interactive whiteboard Yes in #1
Speaker - ceiling mounted Yes in #1
Clock Yes in #1
Other communications/IT equipment or requirements:
• _____

Safety/Security

Nonmaster locks _____
Intrusion alarm system _____
Access control _____
Other safety/security equipment or requirements:
• _____

Fixed Furnishings/Equipment #1 #2 #3 #4 #5 #6 #7 #8 #9 #10 #11 #12

Whiteboard (8'-0")	Qty	<u>2</u>												
Tackboard (4'-0")	Qty	<u>2</u>

• With glazed lites		<u>Yes</u>												
• Exterior door required		<u>Yes</u>												

Chapter A2: Interdisciplinary Standard Classrooms

ISC-1 Kindergarten Classroom Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Kindergarten instruction through active exploration.
2. Children practice with tangible articles and are encouraged to develop learning skills, creativity, and imagination.
3. Activities include, but are not limited to group discussions, demonstrations, music activities, listening skills, gross motor skills, art and science projects, and small group activities.

Notes

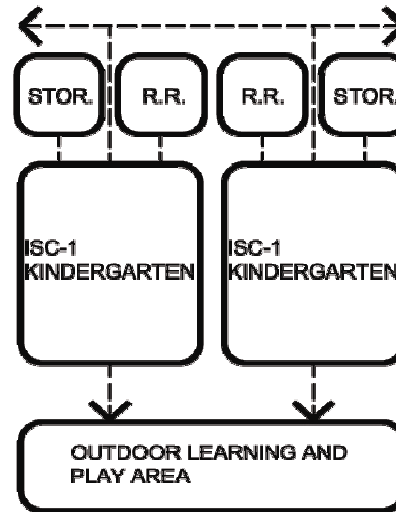

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near other pre-k/kindergarten classrooms
2. Near vehicle drop-off/pickup drive
3. Direct access to outdoor playground
4. Adjacent to individual restroom

Spatial Relationship Diagram

Kindergarten Classroom

ISC-2 Grade 1 General Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY	22 students	
SIZE:	880 s.f.	
ANCILLARY SPACES:	Student Restroom	80 s.f.
	Storage Area	80 s.f.

Key Notes:

- F1 Student storage shelf with coat hooks
- F2 Tall wardrobe cabinet with locks
- F3 Plastic laminate base cabinets and countertop
- F4 Sink(s): specialty type: SS large, deep, single
- F5 Whiteboard
- F6 Tackboard
- F7 Soap dispenser
- F8 Paper towel dispenser
- F9 Windows/daylight into space required
- F10 TV with wall mounting bracket or TV cabinet
- F11 16" deep adjustable shelving
- F12 Plastic laminate upper cabinets
- F13 Overhead projection screen

Electrical/Lighting

Power outlet minimum number Yes in #1
 Lighting requirements:
 • Automatic lighting controls Yes in #1
 • Direct/indirect lighting Yes in #1
 • Multi-level switched Yes in #1
 Other electrical/lighting equipment or requirements:
 • _____

Communications/IT Requirements

Communication outlet (4-port) - teacher Yes in #1
 Communication outlet (1-port per computer station) Yes in #1
 CATV outlet (coax + Cat 6) Yes in #1
 Sound reinforcement outlet Yes in #1
 Wireless access point outlet (2-port) Req. coverage
 Mobile projection cart outlet Yes in #1
 Outlet (1-port) for future interactive whiteboard Yes in #1
 Speaker - ceiling mounted Yes in #1
 Clock Yes in #1
 Other communications/IT equipment or requirements:
 • _____

Safety/Security

Nonmaster locks _____
 Intrusion alarm system _____
 Access control _____
 Other safety/security equipment or requirements:
 • _____

Chapter A2: Interdisciplinary Standard Classrooms

ISC-3 Grades 2 & 3 General Classroom Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Developmental experiences, technical skill building, and hands-on activities.
 2. Activities include but are not limited to group discussions, demonstrations, music activities, listening skills, presentations, art and science projects, and small group activities.

Notes

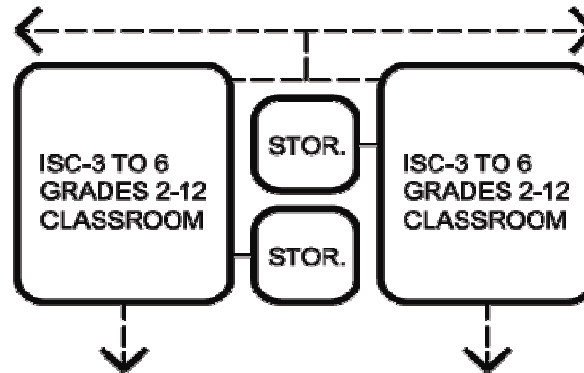

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near other elementary classrooms
 2. Access to outdoor playground
 3. Near large group restrooms

Spatial Relationship Diagram

Grades 2 & 3 General Classroom

ISC-4 Grades 4 thru 6 General Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY: 25 students
 SIZE: 875 s.f.
 ANCILLARY SPACES: Storage Area 80 s.f.

Key Notes:

- F1 Student storage shelf with coat hooks
- F2 Tall wardrobe cabinet with locks
- F3 Plastic laminate base cabinets and countertop
- F4 Sink(s): specialty type: SS large, deep, single
- F5 Whiteboard
- F6 Tackboard
- F7 Soap dispenser
- F8 Paper towel dispenser
- F9 Windows/daylight into space required
- F10 TV with wall mounting bracket or TV cabinet
- F11 16" deep adjustable shelving
- F12 Plastic laminate upper cabinets
- F13 Overhead projection screen

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Serves the instructional programs for language arts, social studies, and mathematics.
 2. Instructional programs shall provide developmental experiences, improve communication skills and social development, and promote in-depth academic understandings.
 3. Delivery of programs will involve traditional methodologies, but will include interdisciplinary activities, a variety of groupings, team teaching, and learning and manipulative exercises.

Notes

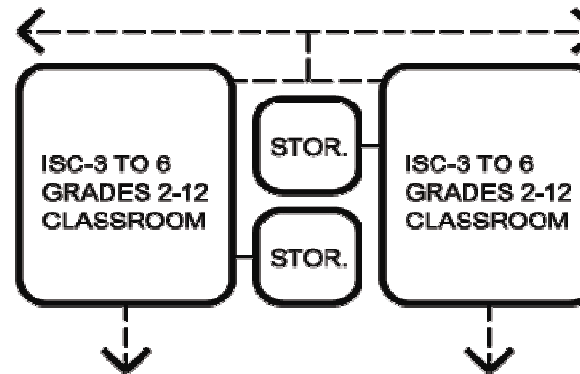

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Easy and quick access to the media center, administrative services, physical education areas, and the arts
 2. Near other academic core areas
 3. Access to outdoor playground
 4. Near large group restrooms
 5. Located in academic zone that is away from noisy or public activities

Chapter A2: Interdisciplinary Standard Classrooms

ISC-7 Teacher Planning / Material Storage Space Criteria

Structural Requirements

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes

Room number sign _____ Yes

Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes

Other fire protection equipment
 or requirements:
 • _____

Program Activities

1. Teachers and other staff members hold meetings and prepare for class.
2. Professional interaction should be encouraged to improve communication, professional development, and team building.
3. Provides teacher office space outside of the classroom.
4. Restroom provides for personal health needs for teachers and staff.

Notes

- Electrical:
1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide emergency light near door(s).
 5. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.

Key Space Design and Relationship Concepts

1. Near academic core classrooms

ISC-8 Staff Restroom

Notes:

CAPACITY: N/A
SIZE: 47 s.f.

Key Notes:

- F1 Toilet paper dispenser
- F2 Grab bars
- F3 Soap dispenser
- F4 Paper towel dispenser
- F5 Mirror
- F6 Floor drain
- F7 Feminine napkin disposal

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Contains computer workstations for group and individual work for grades 1 thru 12.
 2. Activities include computer instruction, media production, and individual project work.

Notes

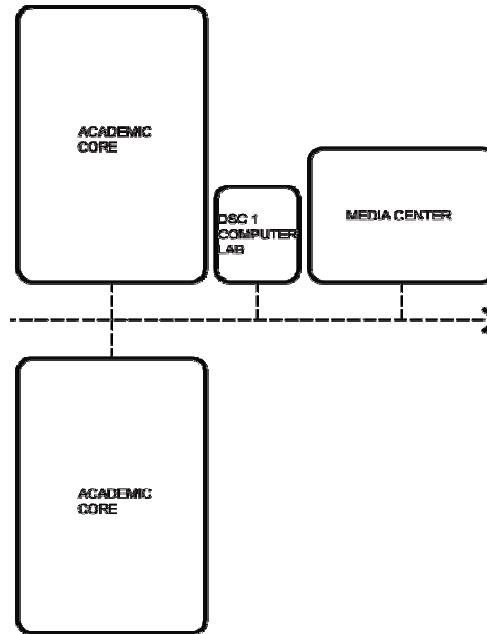

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide a dedicated panelboard for all receptacles within this room and grouped adjacent room(s).
 8. Provide power for overhead projector.
 9. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near academic core classrooms
 2. Near media center
 3. Design for flexible use

Spatial Relationship Diagram

Program Activities

1. Large group, small group, and individual instruction
2. Group and individual work
3. Laboratory experimentation
4. Data collection and analysis
5. Demonstrations
6. Project work

Notes

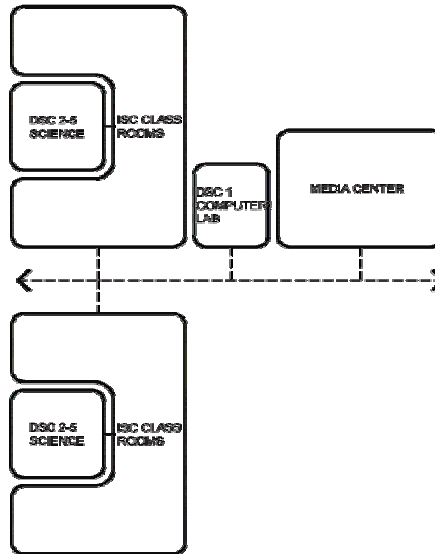

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency light near door(s).
 6. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 8. Provide a dedicated panelboard for all receptacles within this room and adjacent storage and prep room(s). Panelboard shall have a shunt trip main breaker.
 9. Provide an emergency power off (EPO) switch to activate the shunt trip main breaker of the local panelboard.
 10. Above-counter receptacles shall be mounted in a steel raceway system.
 11. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near other science classrooms
2. Adjacent to science prep room
3. Located in academic "zone" that is away from noisy or public activities
4. Access to media center and administrative services
5. Proximity to large group restrooms
6. Flexibility of space
7. Appropriate exterior exposure for "grow" window

Chapter A3: Dedicated Specialized Classrooms

DSC-4 Earth Science / Physics Lab Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Large group, small group, and individual instruction
2. Group and individual work
3. Laboratory experimentation
4. Data collection and analysis
5. Demonstrations
6. Project work

Notes

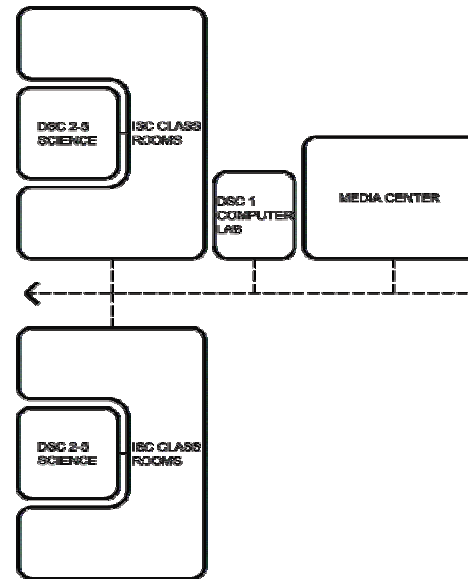

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency light near door(s).
 6. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 8. Provide a dedicated panelboard for all receptacles within this room and adjacent storage and prep room(s). Panelboard shall have a shunt trip main breaker.
 9. Provide an emergency power off (EPO) switch to activate the shunt trip main breaker of the local panelboard.
 10. Above-counter receptacles shall be mounted in a steel raceway system.
 11. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near other science classrooms
2. Adjacent to science prep room
3. Located in academic "zone" that is away from noisy or public activities
4. Access to media center and administrative services
5. Proximity to large group restrooms
6. Flexibility of space

Spatial Relationship Diagram

Earth Science / Physics Lab

DSC-5 Chemistry / Biology Lab

1 FLOOR PLAN
ARCHITECTURAL AND INTERIORS KEY NOTES

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY: 24 students
 SIZE: 1,440 s.f. (includes Science Prep. area)
 ANCILLARY SPACES: Storage Area 120 s.f.

Key Notes:

- F1 Demonstration table/teacher desk
- F2 Whiteboard
- F3 Tackboard
- F4 Base cabinets with locks and acid-resistant countertop
- F5 Windows/daylight into space required
- F6 Emergency shower and eyewash station
- F7 Upper cabinets with locks
- F8 Paper towel dispenser
- F9 Tall wardrobe cabinet with locks
- F10 16" deep adjustable shelving
- F11 Lab sinks
- F12 Base cabinets and acid-resistant countertop
- F13 Interior window
- F14 Floor drain
- F15 TV with wall mounting bracket or TV cabinet
- F16 Student storage shelf with coat hooks
- F17 Overhead projection screen
- F18 Fume hood with pass thru to classroom
- F19 Dishwasher
- F20 Undercounter refrigerator
- F21 Acids cabinet
- F22 Flammables cabinet
- F23 Computer workstations

Chapter A3: Dedicated Specialized Classrooms

DSC-5 Chemistry / Biology Lab Space Criteria

BIA School Facilities Chemistry/Biology Lab

Space Description	For square footages, see space template
1. Chemistry/biology lab	
2. Science prep area	
3. Storage area	

Daily Occupancy Use

9.5 hrs. (7:30 a.m.–5:00 p.m.)	
five days a week	Yes
After-hours use	No

Environmental Conditions

Air pressure (balanced is assumed):	
• Negative	Yes
Hood requirements:	
• Fume hood, as required	Yes in #2
Other HVAC equipment or requirements:	
•	

Plumbing

Domestic water:	
• Hot	Yes in #1,2
• Cold	Yes in #1,2
Floor drain	Yes in #2
Sink(s): specialty type: SS large, deep, single	Yes in #1,2
Specialty chemicals used down sinks	Yes in #1,2
Acid waste	Yes in #1,2
Emergency shower	Yes in #1
Eyewash station	Yes in #1
Other plumbing equipment or requirements:	
•	

"Yes" and "No" apply to all spaces
refers to Space Description designation
✓ indicates approved feature, system, or material

Acoustical Conditions

Speech privacy	No
Special acoustical treatment needed	No
Musical performance/singing/cheering expected	No

Electrical/Lighting

Specialized power requirements	Yes in #1,2
Master shutoff for outlets	Yes in #1,2
Power outlet minimum number	Yes
Lighting requirements:	
• Automatic lighting controls	Yes in #1,2
• Direct/indirect lighting	Yes in #1,2
• Multi-level switched	Yes in #1,2
• Emergency lighting	Yes in #1,2
Ceiling outlet for projector	Yes in #1, except in K-6
Other electrical/lighting equipment or requirements:	
•	

Communications/IT Requirements

Communication outlet (4-port) -teacher	Yes in #1
Communication outlet (1-port per computer station)	Yes in #1
CATV outlet (coax + Cat 6)	Yes in #1
Sound reinforcement outlet	Yes in #1, except in K-6
Projector outlet (1-port ceiling mounted)	Req. coverage
Wireless access point outlet (2-port)	Yes in #1, K-6 only
Mobile projection cart outlet	
Outlet (1-port) for future interactive whiteboard	Yes in #1
Speaker - ceiling mounted	Yes in #1
Clock	Yes in #1
Other communications/IT equipment or requirements:	
•	
Safety/Security	
Nonmaster locks	
Intrusion alarm system	
Access control	
Other safety/security equipment or requirements:	
•	

Fixed Furnishings/Equipment

 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements:
 • High-temperature heads as req. Yes in #2
 • Kitchen hood fire suppression as req. Yes in #2

Program Activities

1. Houses the facilities for the home economics programs, family living program, and consumer science programs.
 2. Activities will include hands-on work, demonstrations, and lectures, delivered to individuals, small groups, and the full group.
 3. Storage area can be enclosed room or casework within the classroom.

Notes

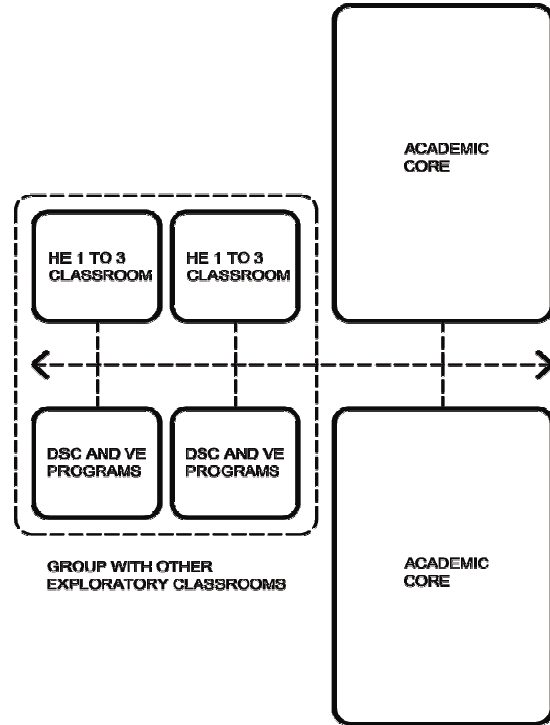

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency light near door(s).
 6. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 8. Provide a dedicated panelboard for all receptacles within this room and grouped adjacent room(s).
 9. Provide dedicated power to each piece of kitchen equipment within this room.
 10. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing areas
 2. Adjacent to other specialized classroom spaces

Chapter A4: Home Economics

HE-3 Food Preparation and Nutrition Classroom Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements:
 • High-temperature heads as req. Yes in #1
 • Kitchen hood fire suppression as req. Yes in #1

Program Activities

1. Houses the facilities for the food preparation and nutrition programs, family living program, and consumer science programs.
 2. Activities will include hands-on work, demonstrations, and lectures, delivered to individuals, small groups, and the full group.
 3. Storage area can be enclosed room or casework within the classroom.

Notes

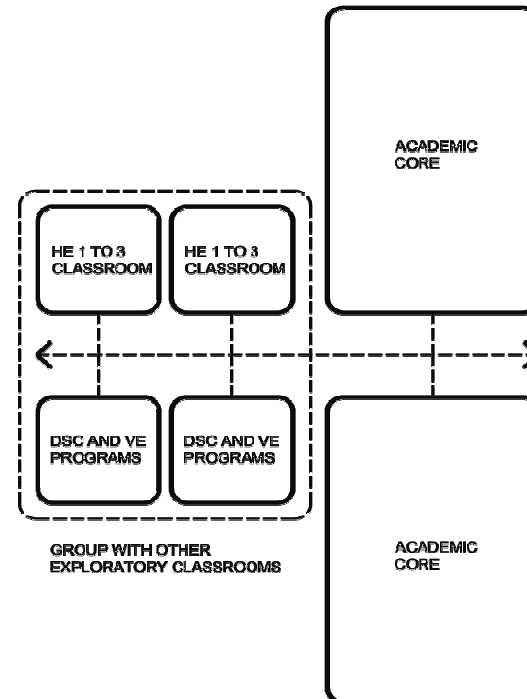

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 5. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 6. Provide dedicated power to each piece of kitchen equipment within this room.
 7. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing areas
 2. Adjacent to other specialized classroom spaces

Spatial Relationship Diagram

Food Preparation and Nutrition Classroom

PFA-1 Grades 1 thru 3 Practical and Fine Arts Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY: 22 students
 SIZE: 1,100 s.f.
 ANCILLARY SPACES: Storage Area 120 s.f.

Key Notes:

- F1 Tall wardrobe cabinet with locks
- F2 Plastic laminate base cabinets and countertop
- F3 Sink(s): specialty type: SS large, deep, single
- F4 Whiteboard
- F5 Tackboard
- F6 Soap dispenser
- F7 Paper towel dispenser
- F8 Windows/daylight into space required
- F9 16" deep adjustable shelving
- F10 TV with wall mounting bracket
- F11 Student storage shelf with coat hooks
- F12 Overhead projection screen
- F13 Plastic laminate upper cabinets

PFA-3 Grades 1 thru 8 Music Programs Classroom Space Criteria

Structural Requirements

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes
 Room number sign _____ Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Music students will listen to, analyze, compose, and describe music; sing alone and with others; play instruments; participate in creative movement, dance, and mime; understand music in relation to history and culture, and in relation to the other arts and academic disciplines.

Notes

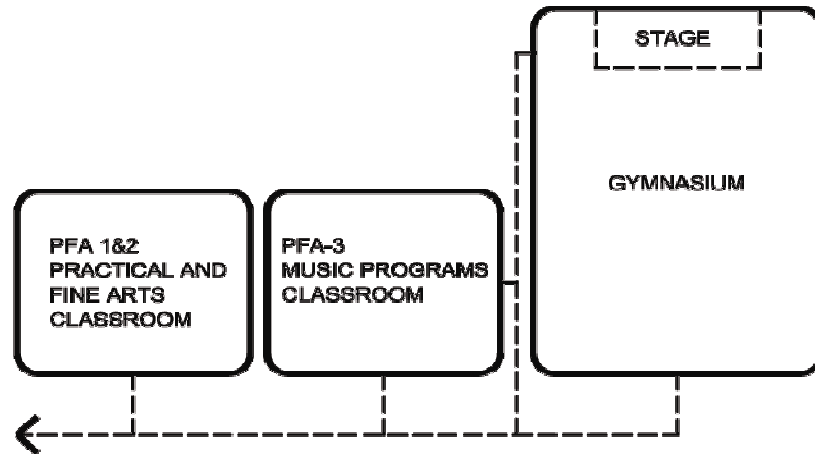

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide a receptacle mounted at +7'-0" for television.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing activities
 2. Near platform

Chapter A6: Practical and Fine Arts

PA-1 Practical Arts Classroom Space Criteria

Structural Requirements

Special suspended loading requirements:
 • Coordinate Unistrut hanging system from underside of structure Yes
 Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements:
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Art students will work on a variety of two- and three-dimensional art projects. Projects will include drawing and painting, computer graphics, sculpture and model making, collage, fiber arts, and ceramics.
 2. Art supplies and art projects will be kept in the storage areas.
 3. Art projects in ceramics and pottery will be fired in the kiln by the teacher.
 4. Pottery will be cured and stored in the greenware room.
 5. Flammable paints and chemicals will be stored in the flammables storage room.

Notes

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 6. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 7. Provide dedicated power to indicated equipment.
 8. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near academic core classrooms
 2. Direct access to outdoors

Spatial Relationship Diagram

High School Practical Arts Classroom

FA-1 Music and Choral Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY: 30 students
 SIZE: 900 s.f.
 ANCILLARY SPACES: Instrument Storage 150 s.f.

Key Notes:

- F1 Windows/daylight into space required
- F2 Whiteboard
- F3 Tackboard
- F4 Tall wardrobe cabinet with locks
- F5 Plastic laminate base cabinets and countertop
- F6 TV with wall mounting bracket
- F7 16" deep adjustable shelving
- F8 Sink(s): specialty type: SS large, deep, single
- F9 Soap dispenser
- F10 Paper towel dispenser
- F11 Student storage shelf with coat hooks
- F12 Plastic laminate upper cabinets
- F13 Project storage cabinets
- F14 Overhead projection screen

VE-1 Middle School Vocational Education Classroom Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided	_____
Special floor loading requirements:	_____
• Coordinate equipment load req.	_____
Special suspended loading requirements:	_____
• Coordinate hung equipment req.	_____
Other structural requirements:	_____
•	_____

Signage Requirements

Room identification sign	_____
Room number sign	_____
Other signage requirements:	_____
•	_____

Fire Protection System

Sprinklers:	_____
• Semi-recessed	_____
• Protection	_____
Other fire protection equipment or requirements:	_____
•	_____

Program Activities

1. Provides space for instruction in the use of tools, materials, and processes and in applying knowledge of planning and design to actual fabrication of projects.
2. Classroom layout includes a clean, separated computer lab for research and project design.

Notes

Electrical:

1. Provide wall switch type occupancy sensor.
2. Provide automatic shut-off via building management system time clock.
3. Provide multi-level light switching.
4. Provide direct/indirect lighting system.
5. Provide emergency light near door(s).
6. Provide exterior emergency lighting.
7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
8. Provide a dedicated panelboard for all receptacles within this room and grouped adjacent rooms. Panelboard shall have a shunt trip main breaker.
9. Provide an emergency power off (EPO) switch to activate the shunt trip main breaker of the local panelboard.
10. Provide a receptacle mounted at +7'-0" for television.

Fire Protection:

1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

HVAC

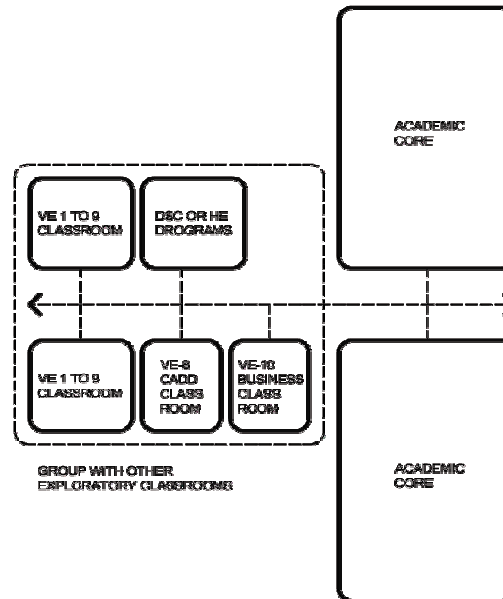

1. A dedicated exhaust system may be required.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing areas
2. Access to driveway and parking
3. Direct access to outdoors

Chapter A8: Vocational Education

VE-2 High School Vocational Education Classroom Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided	_____
Special floor loading requirements:	_____
• Coordinate equipment load req.	_____
Special suspended loading requirements:	_____
• Coordinate hung equipment req.	_____
Other structural requirements:	_____
•	_____

Signage Requirements

Room identification sign	_____
Room number sign	_____
Other signage requirements:	_____
•	_____

Fire Protection System

Sprinklers:	_____
• Semi-recessed	_____
• Protection	_____
Other fire protection equipment or requirements:	_____
•	_____

Program Activities

1. Provides space for instruction in the use of tools, materials, and processes and in applying knowledge of planning and design to actual fabrication of projects.
2. Classroom layout includes a clean, separated computer lab for research and project design.

Notes

Electrical:

1. Provide wall switch type occupancy sensor.
2. Provide automatic shut-off via building management system time clock.
3. Provide multi-level light switching.
4. Provide direct/indirect lighting system.
5. Provide emergency light near door(s).
6. Provide exterior emergency lighting.
7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
8. Provide a dedicated panelboard for all receptacles within this room and grouped adjacent rooms. Panelboard shall have a shunt trip main breaker.
9. Provide an emergency power off (EPO) switch to activate the shunt trip main breaker of the local panelboard.
10. Provide a receptacle mounted at +7'-0" for television.

Fire Protection:

1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

HVAC

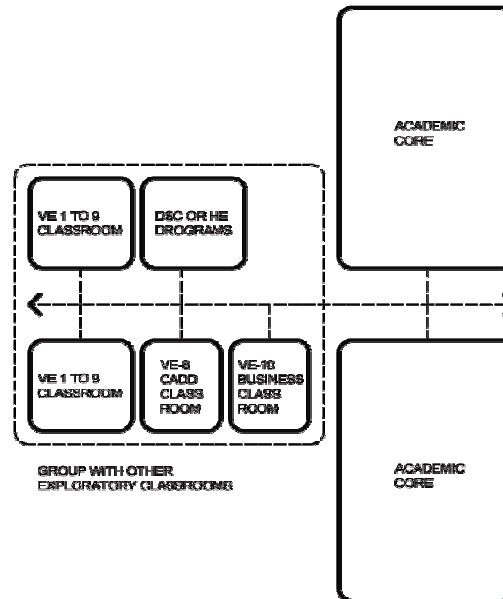

1. A dedicated exhaust system may be required.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing areas
2. Access to driveway and parking
3. Direct access to outdoors

Spatial Relationship Diagram

Vocational Education Classroom

VE-3 Industrial Arts Shop

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.
3. Computer lab is part of classroom s.f.

CAPACITY:	16 students
SIZE:	2,240 s.f.
ANCILLARY SPACES:	Material & Project Storage 200 s.f. Paint Storage Per Code

Key Notes:

- F1 Sink(s): specialty type: SS large, deep, dual
- F2 Plastic laminate base cabinets and countertop
- F3 16" deep adjustable shelving
- F4 Overhead garage door (12' x 10')
- F5 Whiteboard
- F6 Tackboard
- F7 TV with wall mounting bracket
- F8 Windows/daylight into space required
- F9 Plastic laminate upper cabinets
- F10 Tall wardrobe cabinet with locks
- F11 Student storage shelf with coat hooks
- F12 Overhead projection screen
- F13 Project storage cabinets
- F14 Plastic laminate countertops for computer workstations
- F15 Tool benches with storage under
- F16 Student work tables

• Operable window required	Yes											
Doors:												
• Wood	✓	✓	✓	✓								
• Hollow metal	✓	✓	✓	✓								
• With glazed lites	Yes		Yes									
• Exterior door required	Yes											
• Overhead garage door (12' x 10' insulated)	Yes											

Chapter A8: Vocational Education

Structural Requirements

Consider acoustic roof deck if no ceiling is provided	_____
Special floor loading requirements:	_____
• Coordinate equipment load req.	_____
Special suspended loading requirements:	_____
• Coordinate hung equipment req.	_____
Other structural requirements:	_____
•	_____

Signage Requirements

Room identification sign	_____
Room number sign	_____
Other signage requirements:	_____
•	_____

Fire Protection System

Sprinklers:	_____
• Semi-recessed	_____
• Protection	_____
Other fire protection equipment or requirements:	_____
•	_____

Program Activities

1. Students learn the safe and effective use of wood-working equipment, tools, and materials while completing specific projects.
2. Students gain skills in the proper use and care of equipment.
3. Students learn to use construction plans and measurements.
4. Students learn effective use of workspace and time.
5. Students gain skills in planning and problem solving.
6. Classroom layout includes a clean, separated computer lab for research and project design.

Notes

Electrical:

1. Provide wall switch type occupancy sensor.
2. Provide automatic shut-off via building management system time clock.
3. Provide multi-level light switching.
4. Provide direct/indirect lighting system.
5. Provide emergency light near door(s).
6. Provide exterior emergency lighting.
7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
8. Provide a dedicated panelboard for all receptacles within this room and grouped adjacent rooms. Panelboard shall have a shunt trip main breaker.
9. Provide an emergency power off (EPO) switch to activate the shunt trip main breaker of the local panelboard.
10. Provide a receptacle mounted at +7'-0" for television.

Fire Protection:

1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

HVAC

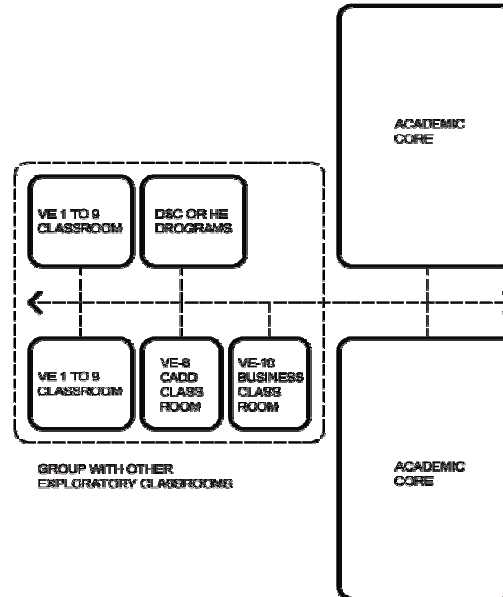

1. A dedicated exhaust system may be required.

Key Space Design and Relationship Concepts

1. Grouped with other noise-producing areas
2. Access to driveway and parking
3. Direct access to outdoors

Spatial Relationship Diagram

Chapter A9: Special Programs

SP-1 Family and Childhood Education (FACE) Program Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Early childhood education, parenting skills, parent and child interaction time, and adult education and training
2. Training for early childhood careers
3. Training for parenting
4. Preschool and toddler care

Notes

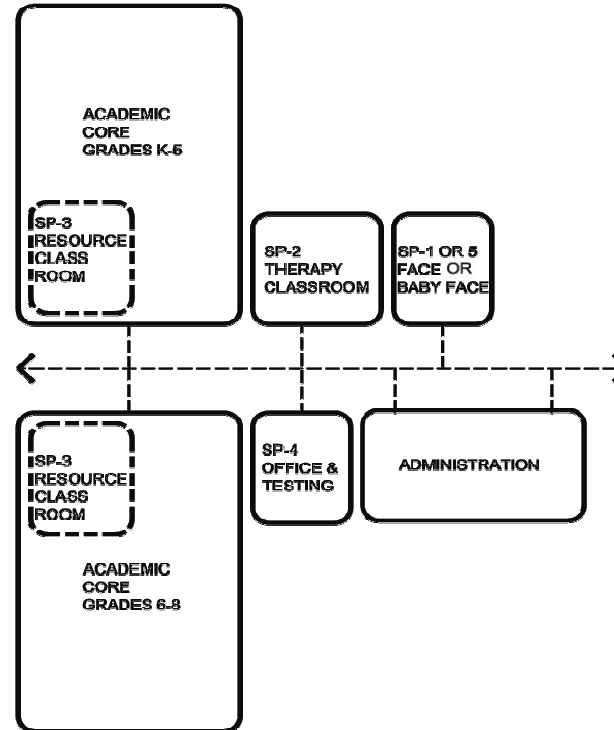

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency light near door(s).
 6. Provide emergency exterior lighting.
 7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 8. Provide dedicated power to each piece of kitchen equipment within this room.
 9. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

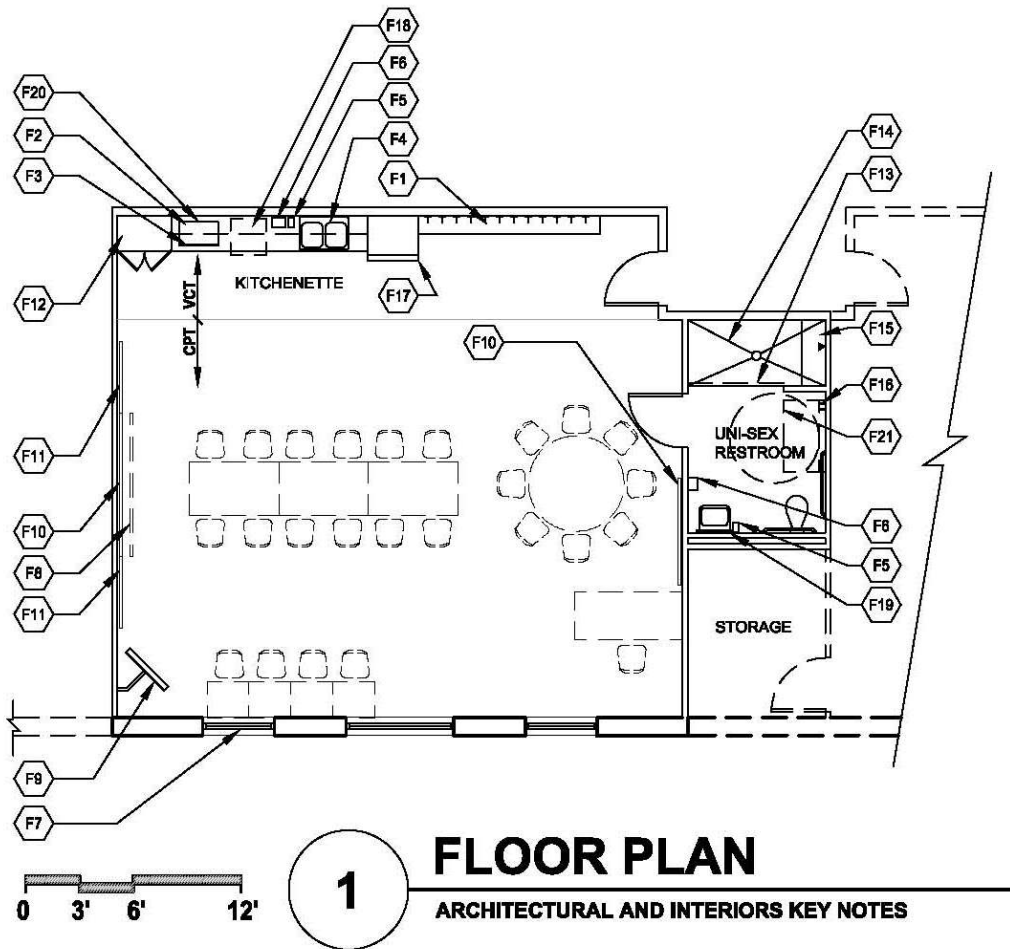

1. Classrooms should have direct access to outdoors
2. Near vehicle drop-off/pickup area

Spatial Relationship Diagram

Family and Childhood Education (FACE) Program

SP-2 Therapy Classroom

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY:	12 students	
SIZE:	880 s.f.	
ANCILLARY SPACES:	Unisex Restroom	100 s.f.
	Kitchenette	80 s.f.

Key Notes:

- F1 Student storage shelf with coat hooks
- F2 Plastic laminate upper cabinets
- F3 Plastic laminate base cabinets and countertop
- F4 Sink(s): specialty type: SS large, deep, dual
- F5 Soap dispenser
- F6 Paper towel dispenser
- F7 Windows/daylight into space required
- F8 Overhead projection screen
- F9 TV with wall mounting bracket
- F10 Whiteboard
- F11 Tackboard
- F12 Tall wardrobe cabinet with locks
- F13 Shower curtain
- F14 Handicapped accessible shower
- F15 Shower bench
- F16 Wardrobe hooks
- F17 Refrigerator
- F18 Dishwasher
- F19 Mirror
- F20 Microwave
- F21 Fold-down changing table

Chapter A10: School Administration

SA-1 Administrative Offices – 100 Students or Fewer Space Criteria

Structural Requirements

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes
 Room number sign _____ Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Central administrative suite for the school
2. Reception/secretary services, including receiving visitors and providing visual security for the main entry, as well as support for administrative staff
3. Office space for administrative and counseling staff
4. Nurse's office treatment of minor injuries, administration of medicine, and cots for sick children
5. Secured storage for cash and records
6. Work space for copying, mail distribution, and general administrative storage needs
7. Conferences with staff, students, parents, and other community members
8. Staff restroom for staff health needs
9. Break, lunch, and meeting area for faculty

Notes

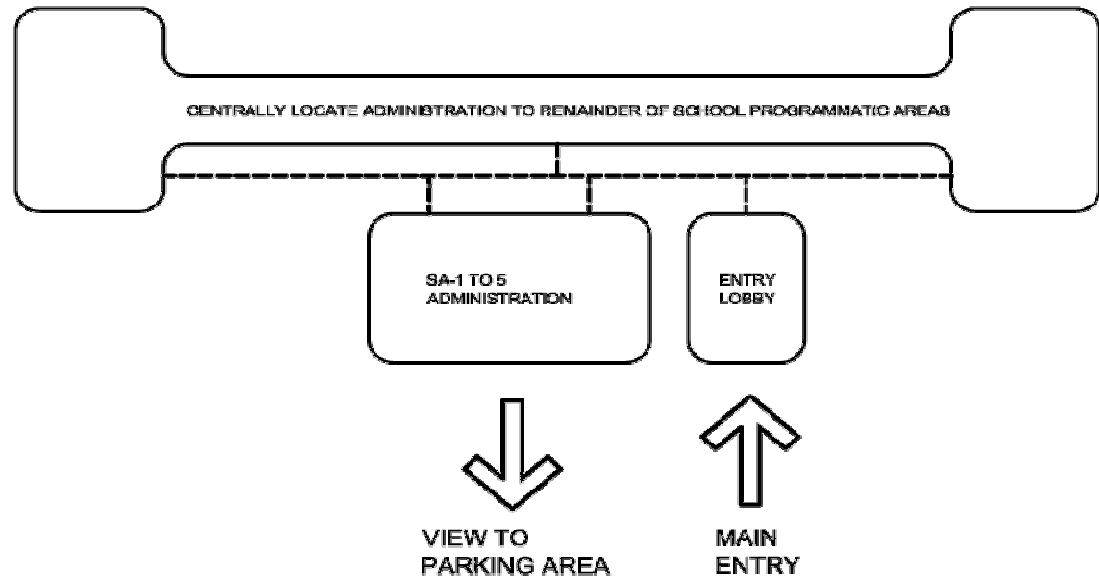

- Electrical:
1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide emergency light near doors.
 5. Provide emergency lighting for egress path.
 6. Provide zone lighting at beds separately from work area lighting.
 7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 8. Provide power for video conferencing if requested by the BIA.
 9. Provide a minimum of three dedicated above-counter receptacles.
 10. Provide a minimum of four dedicated receptacles in this space.

Key Space Design and Relationship Concepts

1. Adjacent to main school entry
2. Access to all areas of the school
3. Visual access to parent and bus drop-off areas

- F11 Interior window
- F12 TV with wall mounting bracket
- F13 Plastic laminate upper cabinets
- F14 16" deep adjustable shelving
- F15 Overhead projection screen

Chapter A11: Media Centers

MC-1 Grades K thru 8 Media Center – 100 Students or Fewer Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. The media center is an information laboratory that serves the instructional needs of the entire school.
 2. Provides students with access to information technology and multimedia materials in an area that allows for individual, small group, and classroom research. Space should encourage the development of positive attitudes toward reading and learning.

Notes

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency lighting for egress path.
 6. Provide exterior emergency lighting.
 7. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 8. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 9. Provide a minimum of two dedicated receptacles per wall in this room.
 10. Provide a receptacle mounted at +7'-0" for television.
 11. Provide power for overhead projector.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near academic center of the school
 2. Access to classrooms
 3. Easy access to public parking

Spatial Relationship Diagram

Grades K thru 8 Media Center – 100 Students or Fewer

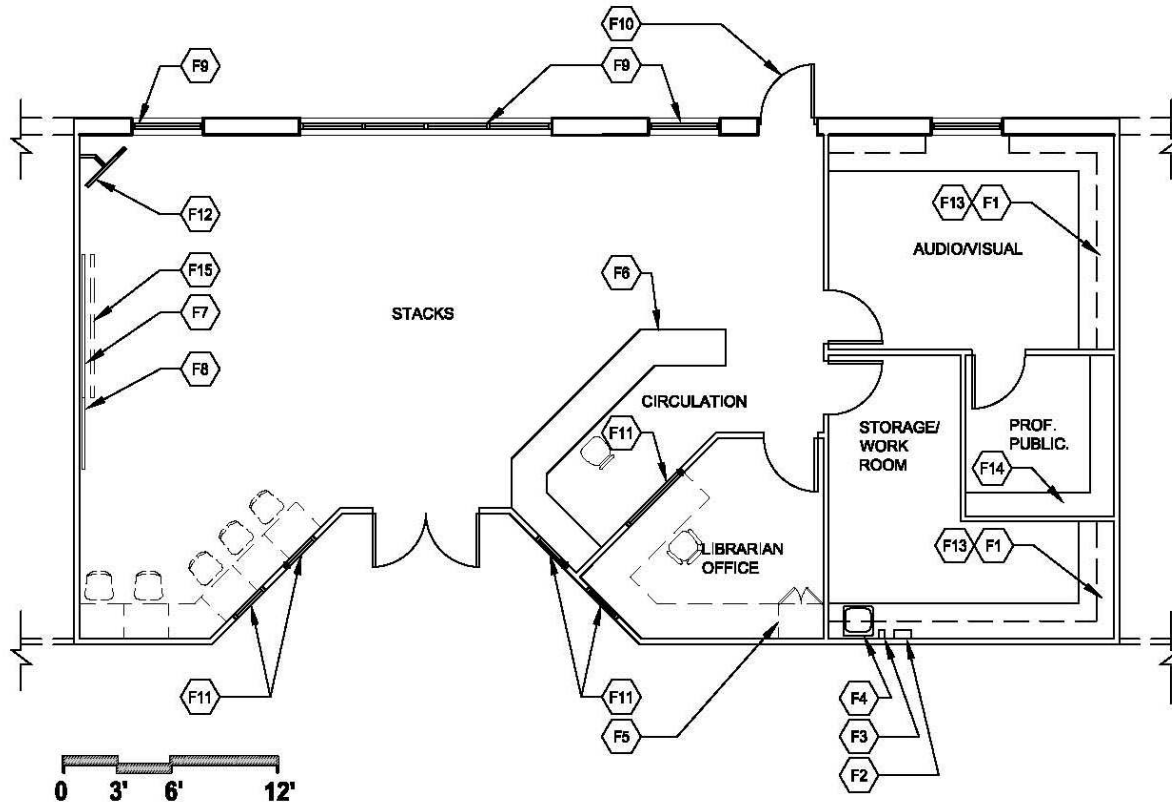

Opposite of main lobby

At front of school

	Conference Room	250 s.f.

Key Notes:

- F1 Plastic laminate base cabinets and countertop
- F2 Paper towel dispenser
- F3 Soap dispenser
- F4 Sink(s): specialty type: SS, deep, single
- F5 Tall wardrobe cabinet with locks
- F6 Circulation desk
- F7 Whiteboard
- F8 Tackboard
- F9 Windows/daylight into space required
- F10 Exterior door
- F11 Interior window
- F12 TV with wall mounting bracket
- F13 Plastic laminate upper cabinets
- F14 16" deep adjustable shelving
- F15 Overhead projection screen

Chapter A11: Media Centers

MC-3 Grades K thru 8 Media Center – 201 to 400 Students Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. The media center is an information laboratory that serves the instructional needs of the entire school.
 2. Provides students with access to information technology and multimedia materials in an area that allows for individual, small group, and classroom research. Space should encourage the development of positive attitudes toward reading and learning.

Notes

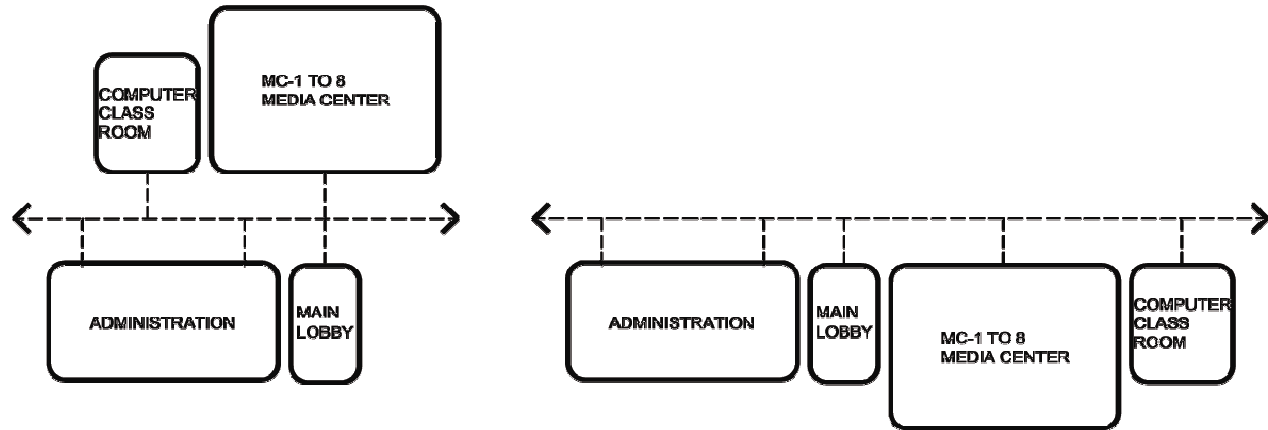

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency lighting for egress path.
 6. Provide exterior emergency lighting.
 7. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 8. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 9. Provide a minimum of two dedicated receptacles per wall in this room.
 10. Provide a receptacle mounted at +7'-0" for television.
 11. Provide power for overhead projector.
 12. Provide power for videoconferencing if requested by the BIA.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near academic center of the school
 2. Access to classrooms
 3. Easy access to public parking

Spatial Relationship Diagram

Chapter A11: Media Centers

MC-7 Grades 9 thru 12 Media Center – 201 to 400 Students Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. The media center is an information laboratory that serves the instructional needs of the entire school.
 2. Provides students with access to information technology and multimedia materials in an area that allows for individual, small group, and classroom research. Space should encourage the development of positive attitudes toward reading and learning.

Notes

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide direct/indirect lighting system.
 5. Provide emergency lighting for egress path.
 6. Provide emergency light near door(s).
 7. Provide exterior emergency lighting.
 8. Provide automatic shut-off via building management system photocell of portion of perimeter zone of electric lighting system.
 9. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
 10. Provide a minimum of four dedicated receptacles on each lone wall in this room.
 11. Provide a receptacle mounted at +7'-0" for television.
 12. Provide power for overhead projector.
 13. Provide power for videoconferencing if requested by the BIA.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.

Key Space Design and Relationship Concepts

1. Near academic center of the school
 2. Access to classrooms
 3. Easy access to public parking

Spatial Relationship Diagram

Grades 9 thru 12 Media Center – 201 to 400 Students

Opposite of main lobby

At front of school

MC-8 Grades 9 thru 12 Media Center – 400 Plus Students

1 FLOOR PLAN
ARCHITECTURAL AND INTERIORS KEY NOTES

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

CAPACITY: Enrollment of 400+ students
SIZE: 2,100 s.f. plus 30 s.f. per student of 15% of the total student design capacity over 400

ANCILLARY SPACES:	Professional Publications	75 s.f.
	Librarian Office	120 s.f.
	Audio/Visual	200 s.f.
	Storage/Workroom	200 s.f.
	Circulation Desk	100 s.f.
	Student Project Room	880 s.f.
	Conference Room	300 s.f.

Key Notes:

- F1 Plastic laminate base cabinets and countertop
- F2 Paper towel dispenser
- F3 Soap dispenser
- F4 Sink(s): specialty type: SS, deep, single
- F5 Tall wardrobe cabinet with locks
- F6 Circulation desk
- F7 Whiteboard
- F8 Tackboard
- F9 Windows/daylight into space required
- F10 Exterior door
- F11 Interior window
- F12 TV with wall mounting bracket
- F13 Plastic laminate upper cabinets
- F14 16" deep adjustable shelving
- F15 Overhead projection screen

Chapter A11: Media Centers

MC-8 Grades 9 thru 12 Media Center – 400 Plus Students Space Criteria

BIA School Facilities 9-12 Media Center - 400+

Space Description For square footages, see space template

1. Reading, browsing, & stack area
2. Professional publications
3. Librarian office
4. Audio/visual
5. Storage/workroom
6. Circulation desk
7. Student project room
8. Conference room

Daily Occupancy Use

9.5 hrs. (7:30 a.m.–5:00 p.m.)
 five days a week Yes
 After-hours use Yes

Environmental Conditions

Air pressure (balanced is assumed):
 • Negative Yes in #4,5
 Other HVAC equipment or requirements: _____
 • _____

Plumbing

Domestic water:
 • Hot Yes in #5
 • Cold Yes in #5
 Sink(s): specialty type: SS large, deep, single Yes in #5
 Other plumbing equipment or requirements: _____
 • _____

"Yes" and "No" apply to all spaces
 # refers to Space Description designation
 ✓ indicates approved feature, system, or material

Acoustical Conditions

Speech privacy Yes in #3,8
 Special acoustical treatment needed Yes
 Musical performance/singing/cheering expected No

Electrical/Lighting

Specialized power requirements Yes
 Power outlet minimum number Yes
 Specialty outlets/dedicated circuit Yes
 Lighting requirements:
 • Automatic lighting controls Yes in #1,3,6
 • Direct/indirect lighting Yes in #1,6
 • Multi-level switched Yes in #1
 • Emergency lighting Yes
 Other electrical/lighting equipment or requirements:
 • _____

Communications/IT Requirements

Communication outlet (2-port) -standard Yes in #4-8
 Communication outlet (4-port) -teacher Yes in #3
 Communication outlet (1-port per computer station) Yes in #7
 CATV outlet (coax + Cat 6) Yes in #1,4
 Wireless access point outlet (2-port) Req. coverage
 Outlet (1-port) for future interactive whiteboard Yes in #1
 Clock Yes in #6
 Other communications/IT equipment or requirements:
 • _____

Safety/Security

Nonmaster locks _____
 Intrusion alarm system _____
 Access control _____
 Other safety/security equipment or requirements:
 • _____

Fixed Furnishings/Equipment

ARCHITECTURAL AND INTERIORS KEY NOTES

Notes:

1. Storage and staff areas may be relocated to conform to building design
2. Provide public restrooms in close proximity to gym.
3. Provide after-hours lobby entry to gym.
4. Locate locker rooms adjacent to gymnasium, location to be determined by each school.
5. Locate concessions in gym lobby.
6. Exterior door locations may be modified.

CAPACITY: N/A
 SIZE: 7,280 s.f. (70' x 104') not including bleacher seating. See *BIE Space Criteria Handbook* for bleacher seating requirements.

ANCILLARY SPACES: Fixed Stage 700 s.f.
 PE Storage 1,000 s.f.

Key Notes:

- F1 Bleachers
- F2 Basketball goals (main court)
- F3 Basketball goals (side courts)
- F4 Wall padding
- F5 16" deep adjustable shelving
- F6 Volleyball stanchion floor anchors
- F7 Center gym divider curtain
- F8 Scoreboard
- F9 Court markings
- F10 Stage curtain
- F11 Operable acoustical partition at stage
- F12 Scorer's table

Chapter A12: Physical Education

PE-4 High School Gymnasium – 201 to 749 Students Space Criteria

Structural Requirements	
Special suspended loading req.:	
• Basketball goals	Yes
Acoustical req. for structural system:	
• Consider acoustical sound block for walls (CMU)	Yes
• Consider acoustic roof deck	Yes
Other structural requirements:	
•	

Notes
<u>Electrical:</u>
1. Provide wall switch type occupancy sensor.
2. Provide automatic shut-off via building management system time clock.
3. Provide multi-level light switching.
4. Provide emergency lighting for egress path.
<u>Plumbing:</u>
1. Provide either a drinking fountain or a bubbler, depending on site location requirements.

Signage Requirements	
Room identification sign	Yes
Room number sign	Yes
Occupancy limit	Yes
Other signage requirements:	
•	

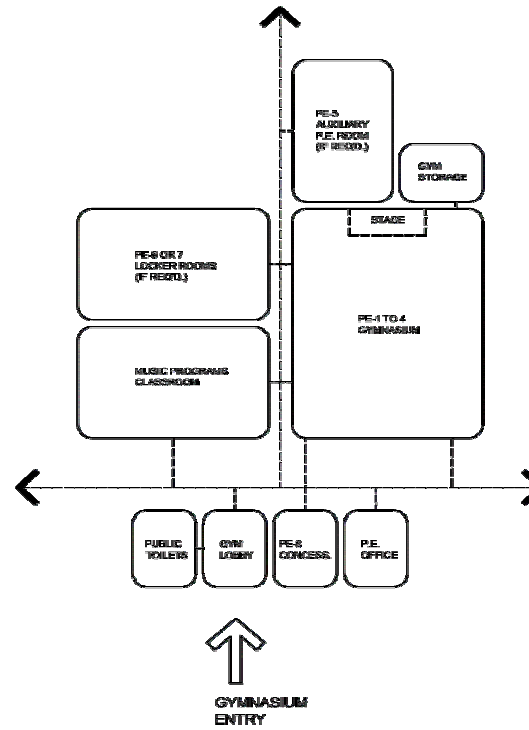

Key Space Design and Relationship Concepts
1. Direct access to outdoors and playfields
2. Adjacent to public parking
3. Adjacent to locker rooms

Fire Protection System	
Sprinklers:	
• Protection	Yes
Other fire protection equipment or requirements:	
•	

Spatial Relationship Diagram

High School Gymnasium – 201 to 749 Students

Program Activities
1. Physical education classes and interscholastic and intramural athletic competition.
2. Student assemblies and performances
3. Community use

Chapter A13: Dining Rooms

DR-1 Dining Room – 100 Students or Fewer Space Criteria

Structural Requirements

Consider acoustic roof deck if no ceiling is provided Yes
 Other structural requirements: _____
 • _____

Signage Requirements

Room identification sign Yes
 Room number sign Yes
 Occupancy limit Yes
 Other signage requirements: _____
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed Yes
 • Protection Yes
 Other fire protection equipment or requirements: _____
 • _____

Program Activities

1. Student dining and assembly type programs.
 2. Does not include space for serving line.

Notes

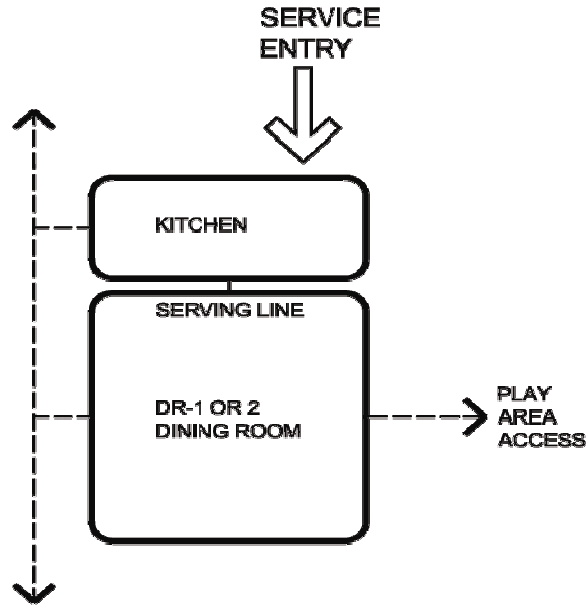

Electrical:
 1. Provide wall switch type occupancy sensor.
 2. Provide automatic shut-off via building management system time clock.
 3. Provide multi-level light switching.
 4. Provide emergency lighting for egress path.
 5. Provide a receptacle mounted at +7'-0" for television.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads, with protection in storage areas.
Plumbing:
 1. Provide either a drinking fountain or a bubbler, depending on site location requirements.

Key Space Design and Relationship Concepts

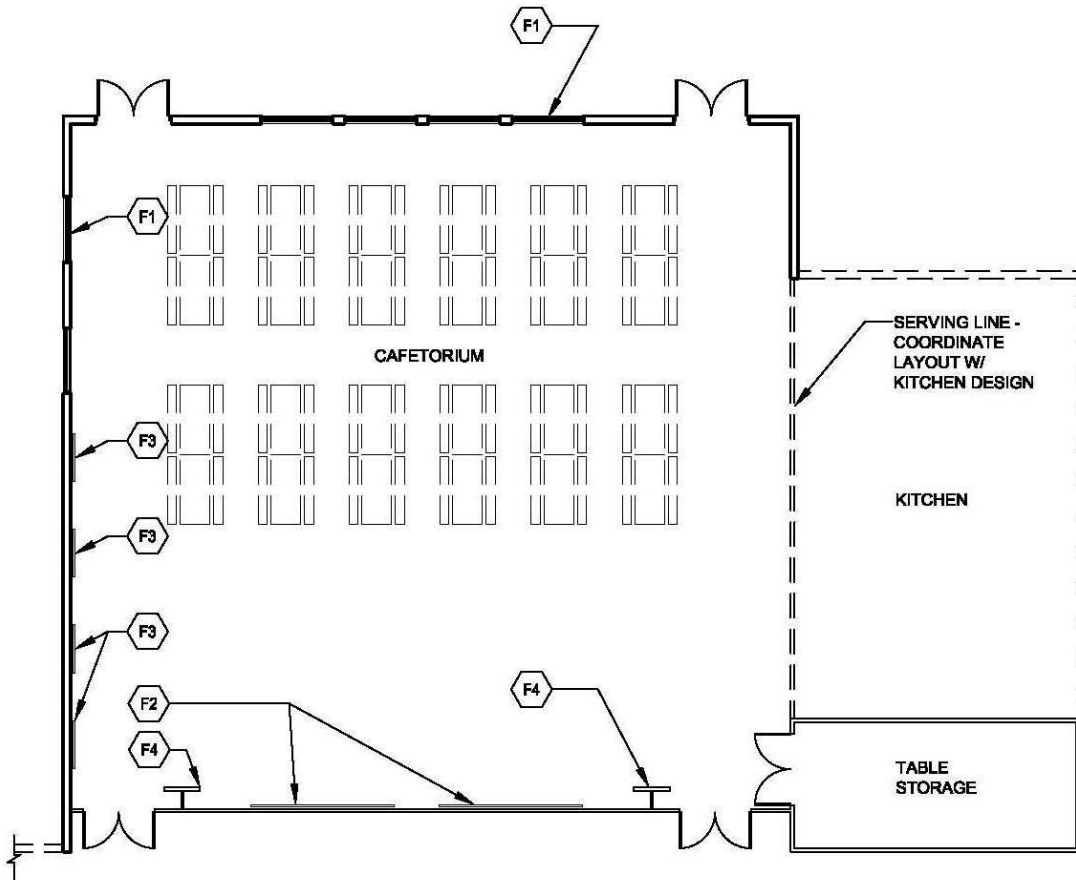

1. Adjacent to kitchen and serving line
 2. Close adjacency to dormitory building if one is included in school development

Spatial Relationship Diagram

Dining Room – 100 Students or Fewer

DR-2 Dining Room – More Than 100 Students

Notes:

1. Design of exterior wall may change as long as functional relationships are maintained.
2. Loose furnishings shown represent one of many possible arrangements.
3. Exterior window locations may be modified.
4. Coordinate serving line requirements with kitchen design.
5. Kitchen location and table storage location may be modified.
6. See the *BIE Educational Space Criteria Handbook* for kitchen area requirements based on number of meals served per day.

CAPACITY: More than 100 students
 SIZE: Dining Area - See *BIE Educational Space Criteria Handbook* for requirements based on student enrollment.

ANCILLARY SPACE: Table Storage 250 s.f.

Key Notes:

- F1 Windows/daylight into space required
- F2 Whiteboard
- F3 Tackboard
- F4 TV with wall mounting bracket

Program Activities

1. Facilities manager office and storage
2. Space for assembly or repair of school equipment
3. Storage of maintenance equipment and materials

Notes

Electrical:

1. Provide wall switch type occupancy sensor.
2. Provide automatic shut-off via building management system time clock.
3. Provide multi-level light switching.
5. Provide emergency light near door(s).
7. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.
8. Provide a minimum of four dedicated receptacles in this room.

Fire Protection:

1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide exposed heads with protection in storage areas.

HVAC

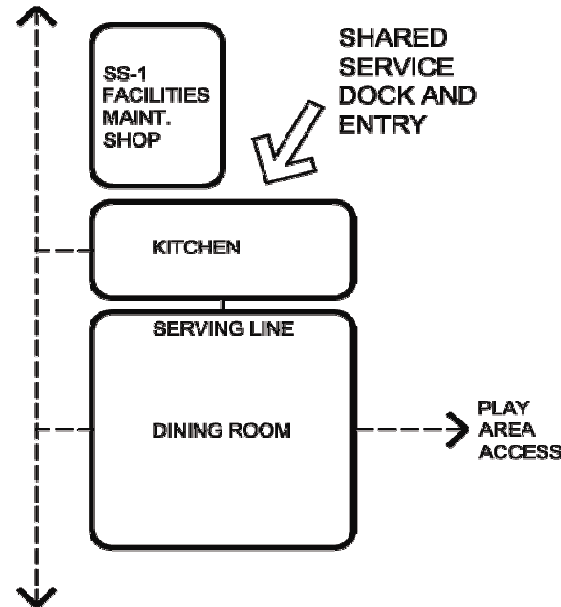

1. A dedicated exhaust system may be required.

Key Space Design and Relationship Concepts

1. Adjacent to kitchen service and loading area
2. Separate from academic and public areas of school
3. Preferably adjacent to mechanical and electrical rooms, but not required

 4. Provide a dedicated ground bar tied to the MDP ground bar.
 5. Provide 3/4" fire rated plywood backboard on all walls within this room from floor to +8'- 0".
 6. Provide two dedicated receptacles for each equipment rack. Receptacles shall be mounted on Unistrut above the racks.
 7. Provide four dedicated 30-amp receptacles evenly spaced above the rack locations for UPS power. Coordinate exact receptacle requirements prior to specification.
 8. When available, all equipment within this room shall be connected to standby generator power.

Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings.

D-1 Grades 1 thru 8 Two-Bed Sleeping Rooms / Restroom

Notes:

1. Verify room layout with F.F.E. size requirements.
2. Exterior window locations may be modified.
3. For accessible sleeping rooms and restroom, modify layout to comply with accessibility requirements.

CAPACITY:	2 students per sleeping area	
SIZE:	Sleeping Rooms	190 s.f. each
	Restroom	120 s.f.

Key Notes:

- F1 Solid plastic countertops
- F2 Mirror
- F3 Windows/daylight into space required
- F4 Toilet partition
- F5 Undercounter drawers
- F6 Shower unit
- F7 Sink
- F8 Toilet
- F9 Floor drain
- F10 Single bed
- F11 Study desk
- F12 Student wardrobe
- F13 Tackboard

Chapter A15: Dormitories

D-10 Intensive Residential Guidance (IRG) Counseling Office Space Criteria

Structural Requirements

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes
 Room number sign _____ Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Space for IRG student counseling

Notes

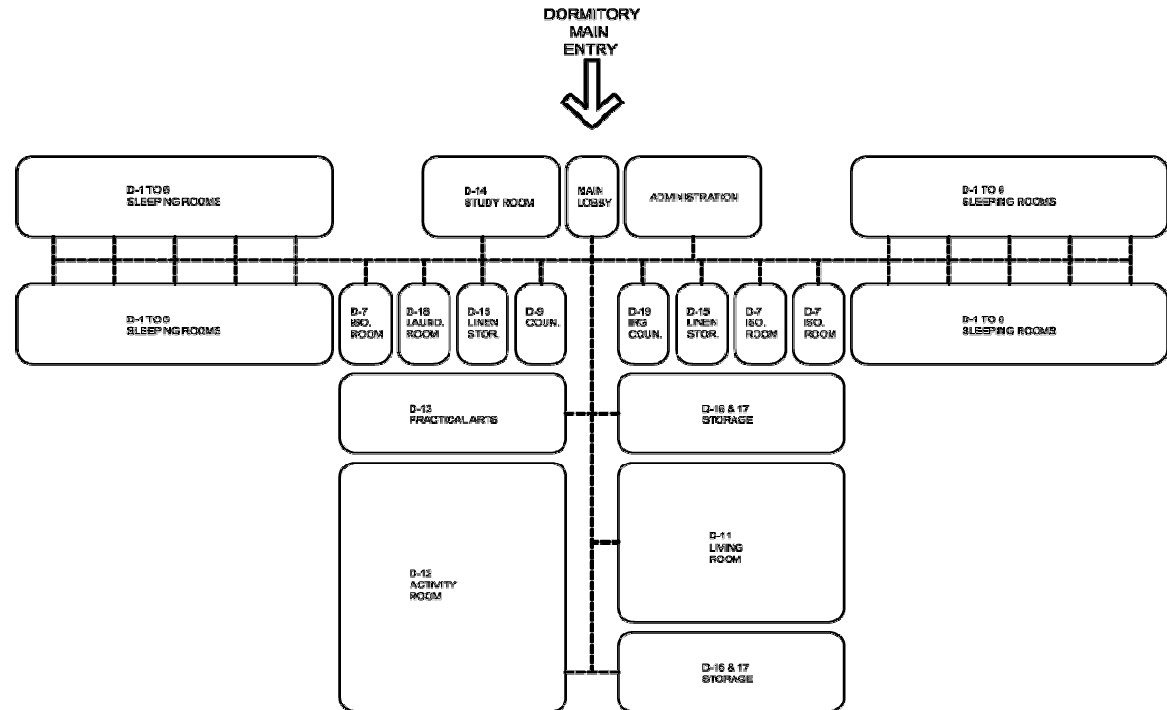

Electrical:
 1. Provide multi-level switching with integral wall switch type occupancy sensor.
 2. Provide a minimum of one receptacle for each computer station (typical). Circuit shall serve computers only.

Key Space Design and Relationship Concepts

1. Adjacent to dorm rooms
 2. Close relationship to all other dorm resident functions
 3. Clearly visible to all dorm residents

Spatial Relationship Diagram

Intensive Residential Guidance Counseling Office

D-11 Living Room

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.
3. Configuration may change due to location and size requirements.

CAPACITY: N/A

SIZE: See *BIE Educational Space Criteria Handbook* for size requirements.

Key Notes:

- F1 Windows/daylight into space required
- F2 Overhead projection screen
- F3 TV with wall mounting bracket
- F4 Plastic laminate countertop and base cabinets with locks
- F5 Plastic laminate upper cabinets with locks

Chapter A15: Dormitories

Structural Requirements

Special suspended loading req.:	
• Basketball goals	Yes
Acoustical req. for structural system:	
• Consider acoustical sound block for walls (CMU)	Yes
• Consider acoustic roof deck	Yes
Other structural requirements:	
•	

Signage Requirements

Room identification sign	Yes
Room number sign	Yes
Occupancy limit	Yes
Other signage requirements:	
•	

Fire Protection System

Sprinklers:	
• Protection	Yes
Other fire protection equipment or requirements:	
•	

Program Activities

1. Multi-purpose space for active play, including basketball, inside games, etc.

Notes

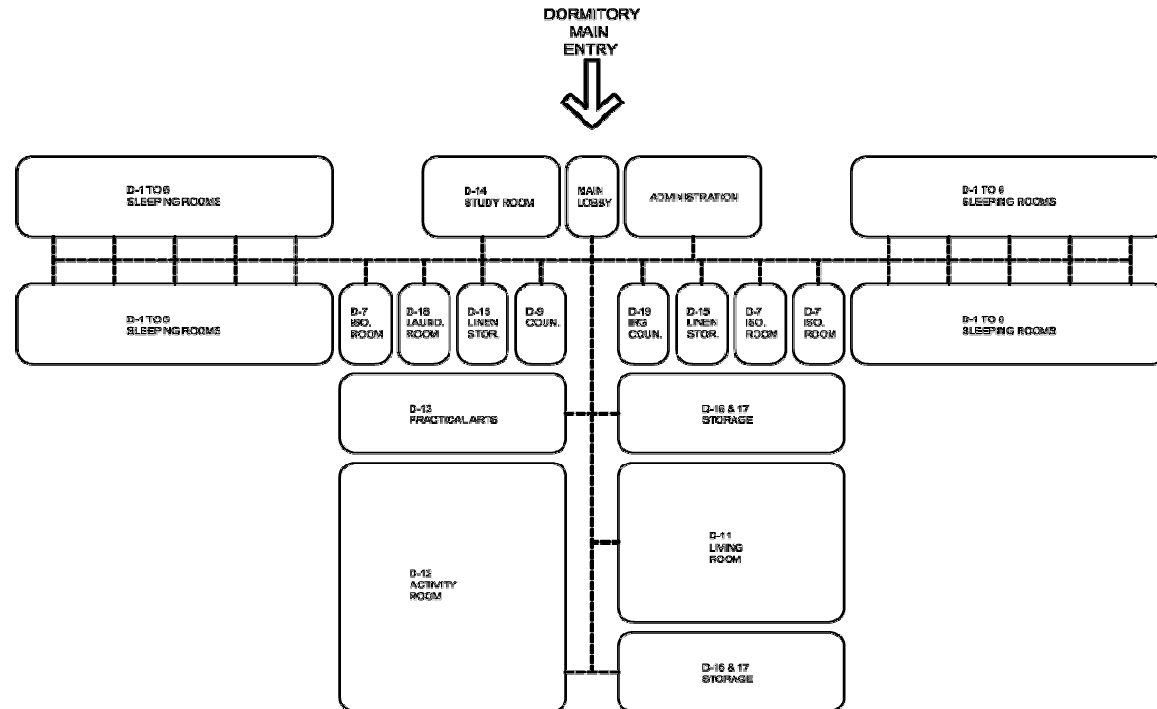

Electrical:
 1. Provide automatic shut-off via building management system time clock.
 2. Provide multi-level light switching.
 3. Provide emergency lighting for egress path.

Key Space Design and Relationship Concepts

1. Centrally located to dorm rooms
 2. Access to outdoor play area

Spatial Relationship Diagram

Activity Room

D-13 Practical Arts Room

Notes:

1. Loose furnishings shown represent one of many possible arrangements.
2. Exterior window locations may be modified.

D-18 Laundry and Ironing Room Space Criteria

BIA School Facilities Laundry and Ironing Room

Space Description

For square footages, see space template

1. Laundry and ironing room

"Yes" and "No" apply to all spaces
refers to Space Description designation
✓ indicates approved feature, system, or material

Acoustical Conditions

Speech privacy No
Special acoustical treatment needed No
Musical performance/singing/cheering expected No

Electrical/Lighting

Specialty outlets/dedicated circuit Yes
Lighting requirements:
• Automatic lighting controls Yes
Other electrical/lighting equipment or requirements:
• _____

Communications/IT Requirements

Other communications/IT equipment or requirements:
• _____

Safety/Security

Nonmaster locks _____
Intrusion alarm system _____
Access control _____
Other safety/security equipment or requirements:
• _____

Daily Occupancy Use

9.5 hrs. (7:30 a.m.–5:00 p.m.)
five days a week Yes
After-hours use Yes

Environmental Conditions

Air pressure (balanced is assumed):
• Negative Yes
Other HVAC equipment or requirements:
• _____

Plumbing

Domestic water:
• Hot Yes
• Cold Yes
Floor drain Yes
Sinks: specialty type: SS large, deep, dual Yes
Washer connection and drain Yes
Other plumbing equipment or requirements:
• _____

Fixed Furnishings/Equipment #1 #2 #3 #4 #5 #6 #7 #8 #9 #10 #11 #12

Casework:
• Plastic laminate countertops Yes
• 16" deep adjustable shelving Yes
• Other _____
Other furnishings/millwork/equipment or requirements:
• Washers Yes
• Dryers Yes
• Ironing boards - wall mounted Yes
• _____

Interior Finishes #1 #2 #3 #4 #5 #6 #7 #8 #9 #10 #11 #12

Walls:
• CMU - painted ✓
• Standard gypsum board - painted or vinyl covered ✓
• Other _____
Base:
• Resilient rubber ✓
• Ceramic tile ✓
• Quarry tile ✓
• Sheet vinyl ✓
• Fluid applied flooring system ✓
• Other _____
Floors:
• Ceramic tile ✓
• Quarry tile ✓
• VCT ✓
• Sheet vinyl ✓
• Sealed concrete ✓
• Fluid applied flooring system ✓
• Other _____
Ceilings:
• Minimum ceiling height 9'0"
• Gypsum board - painted ✓
• Lay-in acoustical ✓
• Other _____
Doors:
• Wood Yes
• Other _____

D-18 Laundry and Ironing Room Space Criteria

Structural Requirements

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes
 Room number sign _____ Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Space for students and staff to do laundry and ironing.
2. Provide a double laundry sink and ironing board for every two sets of washers and dryers. Provide one washer and dryer for every 40 students.

Notes

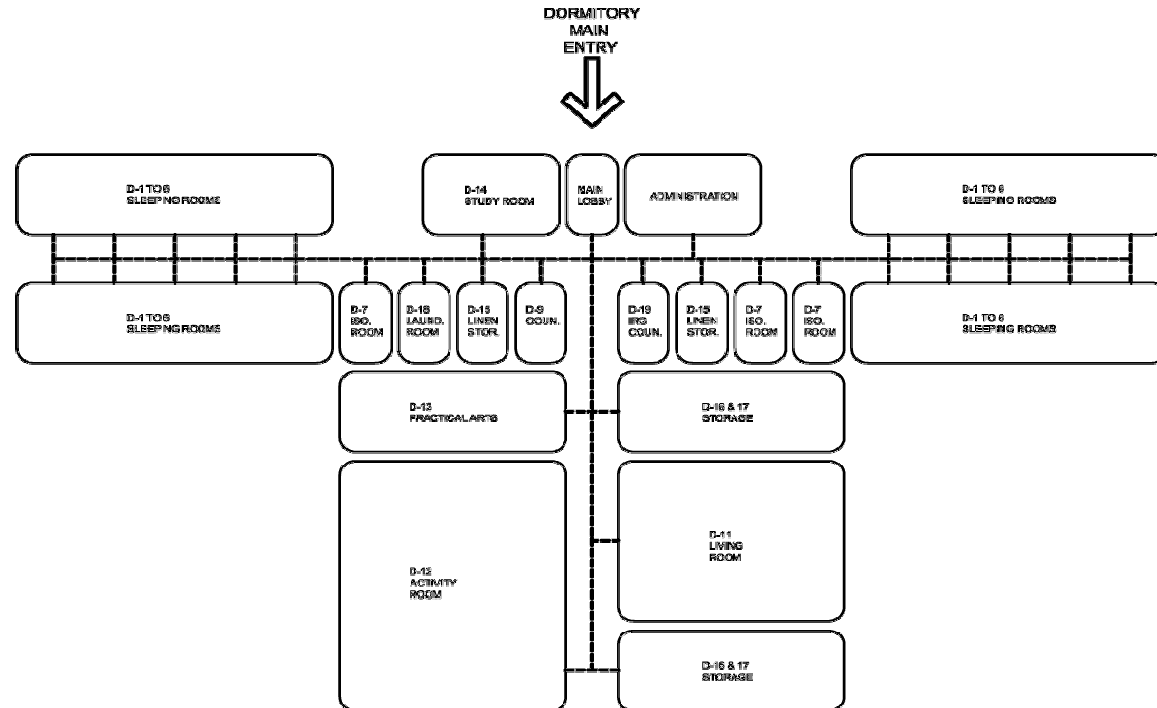

- Electrical:
1. Provide automatic shut-off via building management system time clock.
 2. Provide a minimum of three dedicated above-counter receptacles.
 3. Provide dedicated power to indicated equipment.

Key Space Design and Relationship Concepts

1. Centrally located to dorm rooms.
2. Space can be broken into several individual spaces to serve each dorm wing.

Spatial Relationship Diagram

Laundry and Ironing Room

D-19 Custodial Closets

Notes:

1. Configuration of room may be modified.

CAPACITY: N/A

SIZE: See *BIE Educational Space Criteria Handbook* for size requirements.

Key Notes:

F1 Custodial mop sink

F2 16" deep adjustable shelving

Other structural requirements:
 • _____

Signage Requirements

Room identification sign _____ Yes
 Room number sign _____ Yes
 Other signage requirements:
 • _____

Fire Protection System

Sprinklers:
 • Semi-recessed _____ Yes
 • Protection _____ Yes
 Other fire protection equipment or requirements:
 • _____

Program Activities

1. Space for storage of custodial supplies throughout the building

Notes

Electrical:
 1. Provide wall switch type occupancy sensor.
Fire Protection:
 1. Provide semi-recessed heads for spaces with ceilings. Otherwise, provide protected exposed heads.

Key Space Design and Relationship Concepts

1. One within each residential wing
 2. One adjacent to residential common areas

D-20 Public Restrooms

Notes:

1. Required number of plumbing fixtures and type and size of accessible toilet compartments to be per code.

CAPACITY:	N/A	
SIZE:	Men's Restroom	125 s.f.
	Women's Restroom	125 s.f.

Key Notes:

- F1 Solid plastic countertops
- F2 Toilet partitions
- F3 Grab bars
- F4 Mirror
- F5 Paper towel dispenser
- F6 Soap dispenser
- F7 Toilet paper dispenser
- F8 Floor drain
- F9 Sanitary napkin dispenser
- F10 Sanitary napkin receptacle

Other structural requirements:
• _____

Signage Requirements

Room identification sign _____ Yes
Room number sign _____ Yes
Other signage requirements:
• _____

Fire Protection System

Sprinklers:
• Semi-recessed _____ Yes
Other fire protection equipment
or requirements:
• _____

Program Activities

1. Personal and health needs for students, staff,
and visitors

Notes

Electrical:
1. Provide wall switch type occupancy sensor.
2. Provide emergency light near door(s).
Plumbing:
1. Provide either a drinking fountain or a bubbler, depending on site location requirements.

Key Space Design and Relationship Concepts

1. Near resident common area

Chapter A16: Standard Mounting Heights

1 CASEWORK ELEVATION

1/4" = 1'-0"

ACCESSIBILITY REQUIREMENTS

<u>Age (years)</u>	<u>(a)</u>	<u>(b)</u>	<u>(c)</u>
3-5	-	26" to 30"	-
6-12	24" min.	26" to 30"	-
13 & up	27" min.	28" to 34"	Adult Reach Range

(A 30" maximum high work surface with 27" minimum high knee space is suggested for "dual" adult/children applications.)

Notes:

1. Parallel approach (no knee space) is permitted for ages 3-5.
2. Work surface knee space may be "adaptable" at other than common use, or student applications.
3. Work surface and knee space is required adjacent to an oven in accessible space.

Chapter A16: Standard Mounting Heights

1 CASEWORK ELEVATION
 1/4" = 1'-0"

Notes:

1. Dimension (a), accessible reach ranges to top of lowest shelf:

- Ages 3–4: 36 inches maximum
- Ages 5–8: 40 inches maximum
- Ages 9–12: 44 inches maximum

Chapter A16: Standard Mounting Heights

1 STANDARD AND ACCESSIBLE MOUNTING HEIGHTS
1/4" = 1'-0"

ACCESSIBILITY REQUIREMENTS AT TOILET COMPARTMENTS

<u>Age (years)</u>	<u>(a)</u>	<u>(b)</u>	<u>(c)</u>	<u>(d)</u>
3-4	11" to 12"	18" to 20"	12"	36" maximum
5-8	12" to 15"	20" to 25"	12" to 15"	36" maximum
9-12	15" to 17"	25" to 27"	15" to 18"	36" maximum
Over 12	17" to 19"	33" to 36"	16" to 18"	-

*Centerline dimension (c), for ambulatory toilet compartments (all ages) is 17" to 19"

Notes:

1. Dimension (a) is top of seat
2. Can use a single water closet for two age groups when dimensions are common between them.
3. Need two (2) sets of grab bars when combining "9-12" and "over 12."

Chapter A16: Standard Mounting Heights

1

ACCESSIBLE MOUNTING HEIGHTS

1/4" = 1'-0"

ACCESSIBILITY REQUIREMENTS

Dimension (a), maximum spout height for accessible drinking fountains:

12 years old and less:	30 inches
Over 12 years old:	36 inches

Dimension (b), accessible maximum robe hook height:

Ages 3 and 4:	36 inches
Ages 5-8:	40 inches
Ages 9-12:	44 inches
Over 12 years:	48 inches

Dimension (c), top of grab bar above finished floor:

Ages 3 and 4:	18" to 20"
Ages 5-8:	20" to 25"
Ages 9-12:	25" to 27"
Over 12 years:	33" to 36"

Notes:

- When children are the primary users of a space, three accessible drinking fountain spout heights are required to serve the children and adults present. For children (ages 3-12 years), a drinking fountain with parallel approach (no knee space) is allowed when spout is 30" maximum above finished floor and 3½" maximum from front edge of unit, including bumpers.
- Children 5 years and younger are permitted to use a parallel approach (no knee space) at the accessible sink.

Chapter A16: Standard Mounting Heights

1 ACCESSIBLE MOUNTING HEIGHTS
1/4" = 1'-0"

ACCESSIBILITY REQUIREMENTS

Dimension (a), accessible toilet paper dispenser height:

12 years old and less:	14" to 19"
Over 12 years old:	15" to 48"

Dimension (c), maximum accessible towel dispenser and waste height:

Ages 3 and 4:	36 inches
Ages 5-8:	40 inches
Ages 9-12:	44 inches
Over 12 years:	48 inches

Notes:

1. As applicable, vertical dimensions reflect outlet, inlet, and control height.
2. The bottom edge of mirror reflective surface children's (ages 3-12) lavatories is to be mounted as low as possible, as coordinated with back splash and faucet handles.
